2nd INTERNATIONAL CONFERENCE ON

ANIMAL SCIENCE AND VETERINARY MEDICINE

MARCH 14-15, 2024 | LONDON, UK

https://animalscience.pulsusconference.com/

INVITATION

ANIMAL SCIENCE 2024

We extend a warm welcome to all dignitaries, professors, scientists, students, young researchers, company CEOs, directors, and heads of departments in the field of veterinary medicine to our eagerly anticipated event, the "2nd International Conference on Animal Science and Veterinary Medicine – Animal Science Conferences 2024" which is set to take place with a mix of keynote talks, plenary talks, special sessions, workshops, exhibitions, seminars, and forums for young researchers over the course of 2 days.

The event this year will take place in the lovely city of London, UK from March 14-15, 2024, with the theme "Advancements and Challenges in Animal Science and Veterinary Medicine".

Animal Science Conferences 2024 cover cutting-edge subjects like agribusiness, animal behavior, animal welfare and health, avian health, companion dogs, companion cats, veterinary dentistry, veterinary dermatitis, disease control, equine health, large animals & livestock, pet care business, pharmaceuticals, and veterinary health, veterinary practice management, veterinary reproduction, small animals & exotics, and more.

Animal Science Conferences 2024 will be a hybrid event that will take place both physically and virtually. By registering for the conference and selecting one of the handy packages for in-person or online participation, one can reserve their spot and confirm it.

We hope you join us at Animal Sciences Conferences 2024 and take a little time to enjoy the unique charm of the region.

Regards,
International Organizing Committee,
Animal Science Conferences 2024

ABOUT US

35

Since many years Pulsus has also been very instrumental to provide an invaluable channel for scientists and researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between universities, institutions, research bodies and organizations from different countries through international conferences and meetings.

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

With a legacy of 30 years of excellence in Medical Publishing we are endorsed by various societies like International Academy of Cardiovascular Sciences, International Society of Addiction Medicine, European Biotechnology Thematic Network Association, World Federation of Paediatrics Intensive and Critical Care Societies, World Association of Medical Sciences, International Society for Ceramics in Medicine, Thalassaemia International Federation and World Association of Integrated Medicine to nurture the research and development for the beneficence of society.

MARKET ANALYSIS

The size of the veterinary healthcare market in the United Kingdom is anticipated to increase at a compound annual growth rate (CAGR) of 6.94% from USD 1.64 billion in 2023 to USD 2.29 billion by 2028. The veterinary healthcare market in the United Kingdom was affected by the pandemic epidemic.

Moreover, the growing number of product launches in the UK can contribute to the market's notable expansion. For example, Vetoquinol introduced Felpreva, a three-monthly feline spot-on parasiticide that targets ectoparasites and endoparasites, to the UK market in April 2022. By offering a way to cut down on treatment frequency, felpreva helps owners and their cats have less stressful encounters. Therefore, during the course of the projection period, the UK's veterinary healthcare market is anticipated to grow rapidly due to these factors.

Over the projection period, however, the use of fake medications and rising expenses for veterinary care and animal testing are probably going to impede market expansion.

ABOUT VENUE

London is the capital and largest city of England and the United Kingdom, with a population of around 8.8 million. Located at the head of a 50-mile (80-kilometer) estuary leading to the North Sea, on the River Thames in southeast England, this significant community has been inhabited for about two millennia. Retaining its medieval bounds, the City of London is its old centre and financial hub, having been founded as Londinium by the Romans. The national government and parliament have been housed in the City of Westminster, which is located to the west of the City of London, for centuries. The city surrounding this center, historically divided among the counties of Middlesex, Essex, Surrey, Kent, and Hertfordshire, has also been referred to as "London" which since 1965 has largely comprised Greater London, which is governed by 33 local authorities and the Greater London Authority.

London is home to more than 300 different languages and cultures. With over 9 million residents as of mid-2018, Greater London was the third most populous metropolis in Europe, home to more than 16% of all people in England and 13.4% of all people in the United Kingdom.
