Austria, largely mountainous landlocked country of south-central Europe. Together with Switzerland, it forms what has been characterized as the neutral core of Europe, notwithstanding Austria's full membership since 1995 in the supranational European Union (EU).

Austria is famous for its castles, palaces and buildings, among other architectural works. Some of Austria's most famous castles include Festung Hohensalzburg, Burg Hohenwerfen, Castle Liechtenstein, and the Schloß Artstetten. Many of Austria's castles were created during the Habsburg reign.
