World Immunology 2021 welcomes International guests, speakers, and exhibitors to London, United Kingdom. We are glad to invite you all to attend and register for the "**2nd World Congress on Immunology**," which will be place in **London, United Kingdom**, on **August 6-7, 2021 (WEBINAR)**.

World Immunology 2021 has been developed in an interdisciplinary manner, with a variety of tracks to choose from in every section of Immunology and Genetics, providing you with a unique opportunity to meet up with peers from industry and academia and form a scientific network between them. We kindly encourage all interested parties to attend our event and help us make it a success by participating.

At PULSUS Group, It is our philosophy to provide maximum exposure to our attendees, thus we ensure that the event includes a mix of professionals from academia and industry, including scientists, researchers, and healthcare experts, giving the conference an ideal platform.

The focus of the conference was "Innovations and Research in the Field of Immunology." Our goal is to provide an amazing curriculum that encompasses the complete range of immunology, genetics, and molecular immunology research and breakthroughs, as well as the current research and future scope.

About PULSUS

PULSUS
WWW.PULSUSCONFERENCE.COM

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

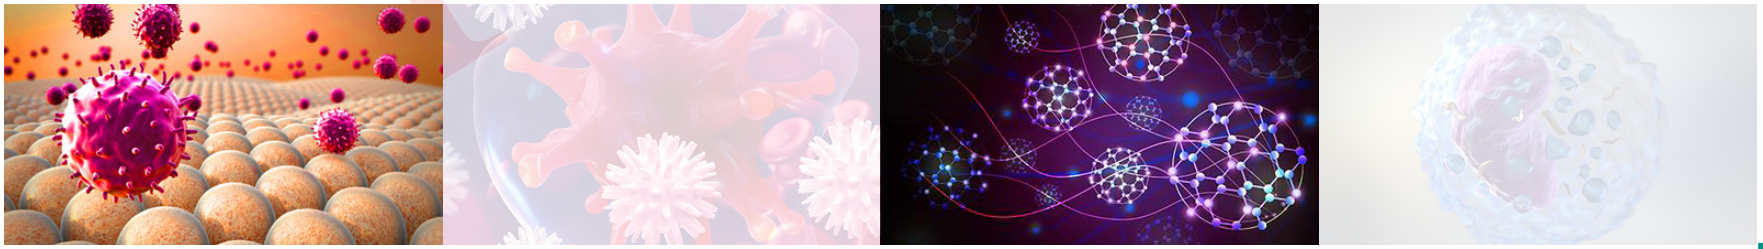

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

The new global immunology report concludes that diseases like AIDS are increasing the casualty's day by day and the new patients diagnosed with such infectious diseases are also increasing at an alarming rate. The global increase in infectious diseases indicates that the body's immune system has gone down in the human raise and this is letting the body easily accessible. All these points narrow down to the fact that the increase in the infectious diseases is going to the primary key for the growth of the immunological market and the demand for immunological products will be at its peak.

Immunomodulators are an effective way to treat infectious diseases like AIDS, where the patient's immune system is boosted and resist against the pathogens are acquired. It is estimated that the global immunology market with grow at a steady CAGR of about 5% by 2022.

The manufacturers have come up with new therapeutic agents which are still awaiting the standardized approval. The introduction of these new agents and therapeutic techniques will take the market to a new level of progress. Manufacturers and scientists are currently focusing on new advanced drugs in immunotherapy. The competition in the immunology market is primarily based on piece, quality, innovation etc.

Both immunosuppressants and immuno boosters are marketed at almost the same rate but the market of immunosuppressants have a slight increase in the recent years as the need for anti-transplant rejection drugs are increasing due to the numerous organ transplant that takes place every day. USA will be the prime revenue generator as the therapeutic advancements are high in the country.

Why to Attend???

Immunology conferences are leading annual immunology conferences happening around the world. Immunology World 2021, the two days of the congress will host 50 Scientific and technical sessions on cutting edge research and latest research innovations in the field of Immunology and biomedical sciences across the globe.

The attendees can find:

- Immunologists
- Microbiologists
- Pathologists
- Bioinformaticians
- Physicians
- University Professors
- Research Scholars
- Laboratory technicians
- Business Entrepreneurs
- Immunology Societies and associations
- Healthcare Industries
- Pharmaceutical Industries
- Vaccine Producing companies
