3RD INTERNATIONAL CONFERENCE ON

RADIOLOGY AND DIAGNOSTIC IMAGING

OCTOBER 17-18, 2024 | LONDON, UK

https://radiology.cmesociety.com/

INVITATION

RADIOLOGY 2024

Radiology 2024 is set to bring together leading radiologists, imaging researchers, clinicians, and professionals from across the globe. With the theme ***"Revolutionizing Radiology: Imaging Technologies and Their Clinical Impact,"*** this conference will be the premier venue for exploring cutting-edge advancements in imaging technologies and their implications for clinical practice. Radiology 2024 will showcase the latest innovations in imaging techniques, discuss their clinical applications, and share outcomes from recent developments. This event provides a unique opportunity for delegates from academic institutions, healthcare organizations, and the imaging industry to engage with top experts, exchange insights, and discuss future trends.

The conference will feature:

- **Keynote Speeches** from renowned leaders in radiology.
- **Plenary Sessions** focusing on breakthrough imaging technologies.
- **Oral** and **Poster** Presentations highlighting recent research and clinical advancements.

Be sure to join us for this transformative gathering. Register now to confirm your participation and take advantage of our early bird discounts.

Best Regards,
Lyra Hawkwood | Program Manager

MARKET ANALYSIS

The global radiology market, valued at USD 76.42 billion in 2022, is projected to grow to USD 300.51 billion by 2030, reflecting a compound annual growth rate (CAGR) of 18.76% from 2023 to 2030. This expansion is largely driven by the increasing incidence of cancer and advancements in imaging technologies. Key imaging techniques include MRI, X-rays, ultrasound, and CT scans, which are essential for diagnosing and treating a range of medical conditions. In 2022, X-rays were the leading segment by services, while diagnostic centers were the top end-user segment.

North America dominated the market in 2022 due to its advanced healthcare infrastructure and high healthcare expenditure. However, the high cost of radiology equipment and regulatory challenges are significant barriers to market growth. The demand for compact, portable radiology machines and web-based imaging systems presents new opportunities for expansion. Key market players, such as FUJIFILM Holdings, General Electric, Siemens, and Canon Medical, are investing in research and development to drive innovation. For example, GE HealthCare launched the MyBreastAI suite in November 2023 to enhance early breast cancer detection.

TARGET AUDIENCE

- Radiologists
- Radiologic Technologists
- Medical Imaging Specialists
- Healthcare IT Professionals
- Data Scientists in Radiology
- Healthcare Administrators
- Medical Students and Residents
- Health Data Analysts
- Imaging Software Developers
- Patient Advocacy Groups
- Healthcare Consultants

WHO SHOULD ATTEND

- Radiologist
- Students Researchers
- Industry Professionals
- Physicians
- Healthcare Associations and
- Societies
- Pharmaceutical Industries
- Healthcare Faculty
- Business Entrepreneurs
- Medical Colleges and Universities
- Health insurance providers
- Researchers
- General audience

WHY TO ATTEND

Global Networking: Engage with esteemed radiologists, industry leaders, and pioneering organizations on an international scale, fostering valuable connections and collaborative opportunities.

Cross-Disciplinary Collaboration: Participate in synergistic discussions and partnerships between radiologists, technologists, and researchers, driving innovation and advancing the field.

Transformative Impact: Delve into cutting-edge imaging technologies and their profound clinical implications, enhancing diagnostic accuracy and improving patient outcomes, positioning yourself at the forefront of radiology advancements.

WHY SPONSOR OUR EVENT?

Maximum exposure at a premier conference devoted to those involved in the office professional industry.
