MARKET ANALYSIS

The global neurology market is rapidly expanding due to research advancements, an aging population, and increasing neurological disorders. North America, led by the U.S., is the largest market, driven by high healthcare spending and a significant burden of neurological conditions. Europe follows closely, with countries like Germany, the UK, and France contributing due to their aging population and increased awareness. The Asia-Pacific region is experiencing the fastest growth, thanks to rising healthcare spending and awareness. Latin America is steadily growing due to an increasing prevalence of neurological disorders and higher healthcare expenditures. Barcelona is an ideal location for the Neurology Congress 2024.
