ABOUT VENUE

Paris is the capital and largest city of France. It is located in the north-central region of the country. The city of Paris has long been recognized as one of the world's most important and most attractive. Paris is especially known for its museums and architectural landmarks. The Paris Métro is the second-busiest metro system in Europe after the Moscow Metro. As the city of light, Paris has retained its role as a center for education and intellectual inquiry. Its sobriquet, "The City of Light", was earned during the Enlightenment. A ship-shaped island situated in the Seine in the middle of Paris, the Île de la Cité serves as the city's historical center The courtyard of the palace is home to one of the great monuments of France. On the eastern end of Île de la Cité, you will find Notre Dame de Paris, situated on a spot that Parisians have long reserved for religious ceremonies. The Louvre is one of the largest palaces in the world, located on the Right Bank, just north of the western tip of the Île de la Cité. The Louvre Museum occupies all four sides of the palace. The victory of Samothrace, Venus de Milo, and the Mona Lisa are some of the treasures of the museum. On the Left Bank stands the Eiffel Tower, an unclad steel truss tower designed by Gustave Eiffel. Invalides Hotel is located just northeast of the Military Academy. Endure the amazing autumn with your family, friends, or beloved here and collect several extraordinary moments.
