Invitation

PULSUS Conferences takes honor and pleasure in welcoming the participants for the "4th International Conference on Endocrinology Disorders, Diabetes Complications and Hypertension" proposed on September 05-06, 2022, in Prague, Czech Republic.

At PULSUS Group, it is our ethics to bring maximum exposure to our attendees, so we make sure the event is a blend that covers professionals such as Scholars, Researchers, Scientists, experts in Endocrinology from Academia & Industry making the Endocrinology 2022 conference a perfect platform.

The invigorating theme of this conference is, "Investigating the innovation in Diabetes and Endocrinology" to promote the world's famous scientific professionals in the specialization of Diabetes & Endocrinology.

The conference will also include an in-depth understanding of the problems that arise from endocrinology, as well as potential concerns and solutions. Endocrinology 2022 offers an opportunity to network with world-renowned scientists, scholars, Business leaders, and experts.

We soulfully welcome you to Prague and hoping that Endocrinology 2022 will inspire you and will result in new collaborations and friendships.

Regards

Endocrinology 2022

16:00-16:15	Network & Refreshments Break*
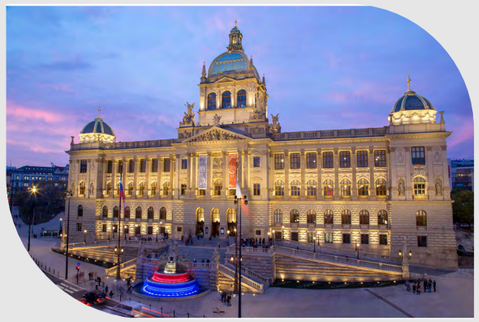
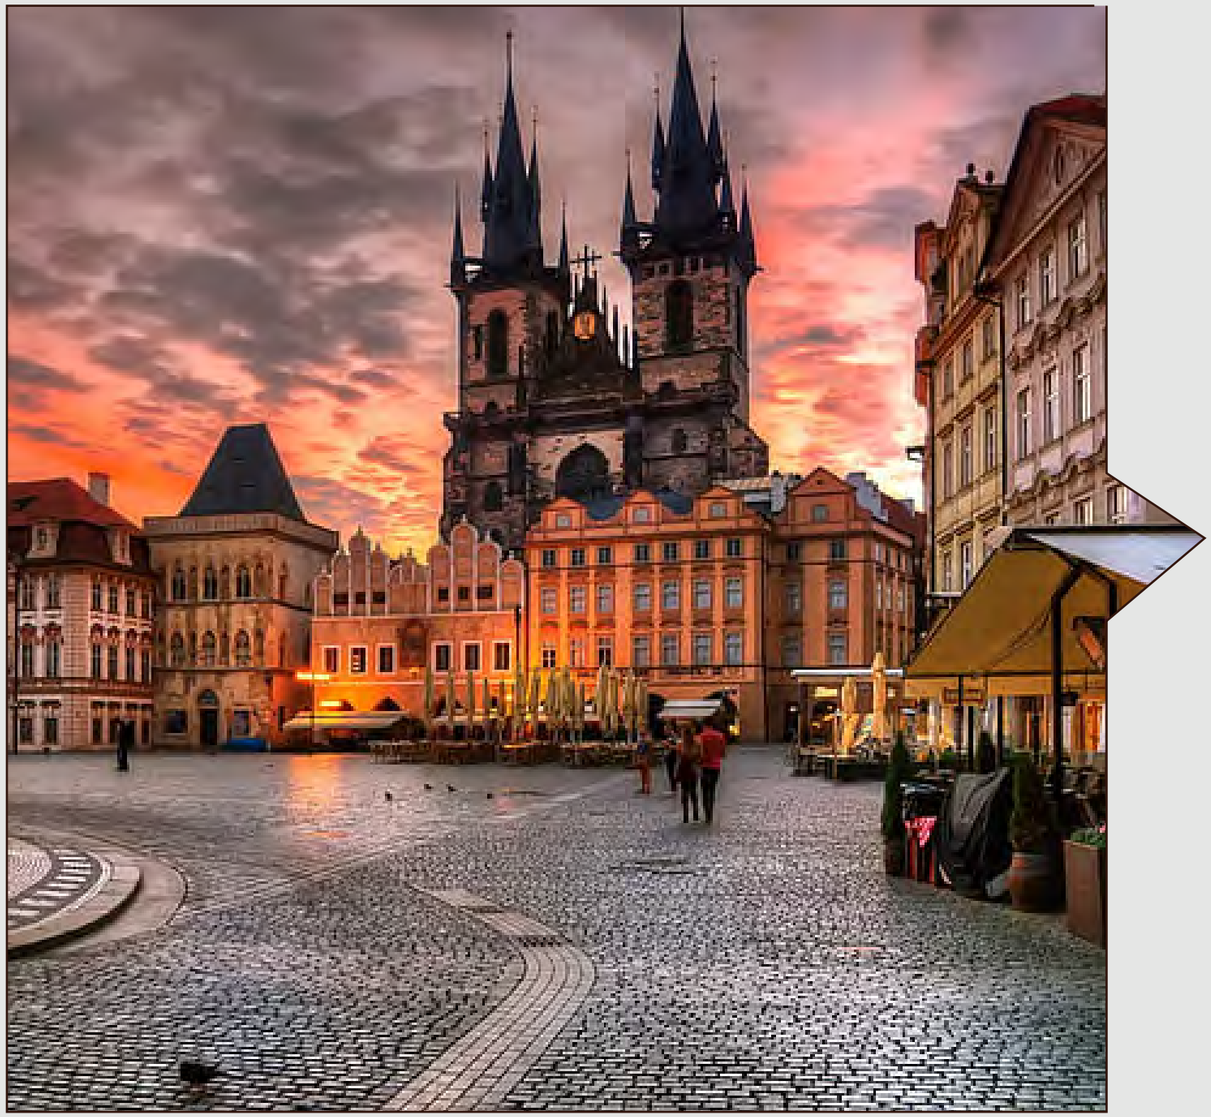
16:15-18:00	Poster Presentations
Day Concludes	
Award Ceremony	

Tourist Attractions



Venue



Prague is the capital and the largest city of the Czech Republic situated in the middle of Bohemia on the Vltava River. It took the city eleven centuries to get the look we know today. Nowadays it covers an area of 496 square kilometres and has about 1 240 000 inhabitants. Prague is known for its diverse architecture and museums, along with its abundant and cheap nightlife, and extensive shopping options. It is also famous for its hearty food and cheap beer, along with its well-maintained UNESCO World Heritage city Centre. Prague is by far the biggest city in Czechia. Other large cities are not coming even close. Prague's 1.44 million residents are almost 4x more than those of the second-largest city Brno whose population is just over 380,000. Prague has only recently become a hot tourist destination, while Western Europe has been on the grid for much longer. With all the magic (and maybe more) of Western European cities with more authenticity and charm, Prague travel is a perfect mix of everything you're looking for.

Discover the best places to visit in this enchanting city with our list of the top attractions in Prague - Prague Castle, Charles Bridge, Wenceslas Square, Treasures at the National Museum, Clementinum and the National Library, Astronomical Clock, St. Vitus Cathedral, Prague Zoo.
