Invitation

PULSUS
WWW.PULSUSCONFERENCE.COM

PULSUS Conferences takes honor and pleasure in welcoming the participants for the "4th International Conference on Endocrinology Disorders, Diabetes Complications and Hypertension" proposed on September 05-06, 2022, in Prague, Czech Republic.

At PULSUS Group, it is our ethics to bring maximum exposure to our attendees, so we make sure the event is a blend that covers professionals such as Scholars, Researchers, Scientists, experts in Endocrinology from Academia & Industry making the Endocrinology 2022 conference a perfect platform.

The invigorating theme of this conference is, "Investigating the innovation in Diabetes and Endocrinology" to promote the world's famous scientific professionals in the specialization of Diabetes & Endocrinology.

The conference will also include an in-depth understanding of the problems that arise from endocrinology, as well as potential concerns and solutions. Endocrinology 2022 offers an opportunity to network with world-renowned scientists, scholars, Business leaders, and experts.

We soulfully welcome you to Prague and hoping that Endocrinology 2022 will inspire you and will result in new collaborations and friendships.

Regards
Endocrinology 2022
Organizing Committee

Conference Highlights

- Endocrinology
- Cellular and Molecular Endocrinology
- Anatomy of Endocrine system
- Paediatric endocrinology
- Adult Endocrinology
- Route of Administration of Endocrine medication
- New expertise in Endocrine Rehabilitation
- Endocrine Disorder
- Diagnosis of Endocrine Diseases
- Medication of Endocrine disorder
- Side effect of Endocrine suppository
- Interaction of Endocrine drugs
- Diabetes and Cancer
- Etiology of Diabetes
- Diabetes types and complications
- Pre-diabetes
- Thyroid disorders
- Genetic diabetes
- Gestational diabetes
- Ketogenic Diet for Diabetes
- Insulin Devices and Diabetes Medication
- Advance Tools and Technology for Diabetes
- Women Healthcare in Hypertension
- Congenital Adrenal Hyperplasia
- Telemonitoring Hypertension

About PULSUS

PULSUS
WWW.PULSUSCONFERENCE.COM

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

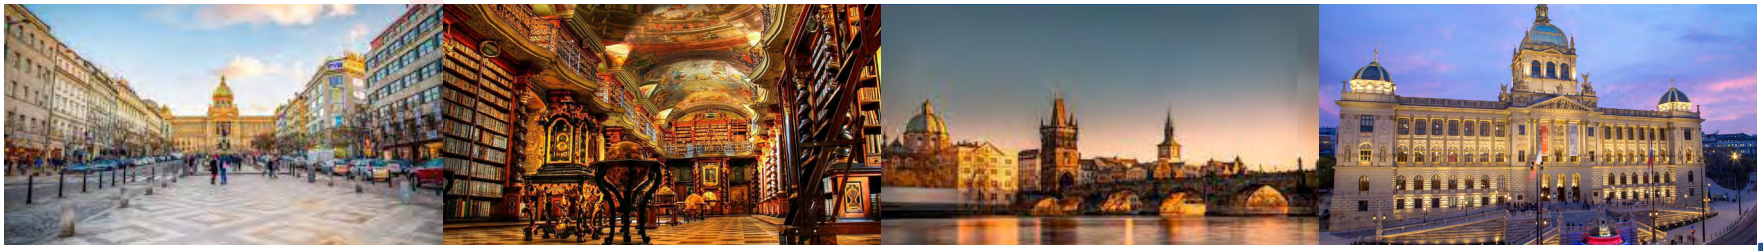

Pulsus Group is a Medical publisher that adheres to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. Pulsus Group takes pride in getting the endorsements of prestigious associations and societies like Canadian medical societies. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine. Pulsus group is closely associated with globally renowned academic and research societies like Association of Food Scientists | International Association of Food Protection | The food industry association | The Association of Food Industries.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

The Endocrine testing marketplace was valued at USD 9,170.62 million in 2020, and it is estimated to achieve USD 13,119.51 million by 2026, registering a CAGR of 6.15% throughout the forecast period.

During the pandemic, many research studies have been revealed that people with thyroid disorders are more prone to the COVID 19 infection, creating a significant demand for various endocrine tests globally to test and perform the thyroid hormone levels. As per the January 2021 research study labelled "Thyroid Function Analysis in 50 Patients with COVID-19: A Retrospective Study", the more severe the COVID-19, the lower the TSH and TT3 levels were, with arithmetic significance. The degree of the decreases in TSH and TT3 levels was positively associated with the difficulty of the disease. Hence, the changes in serum TSH and TT3 levels are the important indications of the courses of COVID-19.

Target audience

- Food & Nutritional Societies
- Young Researchers.
- Students & Delegates.
- Entrepreneurs.
- Research Scholars.
- Professional Service Professionals.
- Scientist.
- Physician

Who Should attend?

- Doctors
- Physicians
- Nurses
- Academicians
- Healthcare specialists
- Public health organisations
- Researchers
- Family medicine specialists
- Healthcare practitioners

Why to attend?

Medical Science 2022 anticipates hundreds of delegates including international keynote lectures and oral presentationsby renowned speakers and poster presentations by students, Exhibitions and delegates all around the world which will craft a platform for global promotion and effective development in this field. It provides international networking and opportunities for collaborations with worldwide companies and industries. This global event will be an excellent opportunity for the Health and Medical Sciences and other professionals. We are anticipating around 100+ speakers and over 200 delegates for this esteemed congress.

Editorial Board Members

Dr. Suleyman Aydin

Department of Medical Biochemistry, Firat Hormones Research Group, Firat University, Elazig, Turkey

Dr. Roza Arturovna Atanesyan

Paediatric endocrinologist, State Budget Healthcare Institution of Stavropol Region, Russian Federation

Dr. Esteban Orenes-Pinero

Head of Proteomic Unit. IMIB-Arrixaca. Associate Professor of the Department of Biochemistry and Molecular Biology-A. University of Murcia, Spain

Dr. Rosaria Meccariello

Associate Professor of Biology at the University of Naples Parthenope, Naples, Italy

Dr. Michal Hubert Wróbel

Professor Assistant in Department of Physiology and Toxicology of Reproduction, Institute of Animal Reproduction and Food Research, Polish Academy of Sciences, Poland

Dr. Laura Raimondi

Department of Neuroscience, Area Drug and Child Health (NEUROFARBA), University of Florence, Florence, Italy

Dr. Rabindra Nath Das

Department of Statistics, The University of Burdwan, West Bengal, India

Dr. Kader Ugur

Assistant Professor, Endocrinology and Metabolism Disease Department, Firat University Medical Faculty, Turkey

Atefeh Rabiee

PhD in Biochemistry and Molecular Biology, Chemical and System Biology Department, Medical School, Stanford University, USA

Journal of Endocrine Disorders & Surgery

Thyroid hormone metabolites: what does the thyroid hide?

PULSUS

About City and Venue

Prague is the capital and the largest city of the Czech Republic situated in the middle of Bohemia on the Vltava River. It took the city eleven centuries to get the look we know today. Nowadays it covers an area of 496 square kilometres and has about 1 240 000 inhabitants. Prague is known for its diverse architecture and museums, along with its abundant and cheap nightlife, and extensive shopping options. It is also famous for its hearty food and cheap beer, along with its well-maintained UNESCO World Heritage city Centre. Prague is by far the biggest city in Czechia. Other large cities are not coming even close. Prague's 1.44 million residents are almost 4x more than those of the second-largest city Brno whose population is just over 380,000. Prague has only recently become a hot tourist destination, while Western Europe has been on the grid for much longer. With all the magic (and maybe more) of Western European cities with more authenticity and charm, Prague travel is a perfect mix of everything you're looking for.

The Czech health care system ranks 8th overall in the World Index of Healthcare Innovation, with an overall score of 49.80. Czechs enjoy a healthy number of choices for coverage and care (ranked #14 for Choice, with a score of 40.80), thanks to its German-style system of universal private coverage. If you are short on time, Prague will be the better choice seeing as it's a smaller, walkable city with better day trip options. If you have a little more time and happen to love food, Budapest will give you a few more options to fill your days, plus, the thermal spas are world-class. Prague, Czechia, features a very safe living environment. According to our city rankings, this is a good place to live with high ratings in housing, cost of living and healthcare. Prague is one of the top ten city matches for 11.9% of Teleport users.

Sponsorship

PULSUS
