"Theme: Empowering Women: Uniting for Breast Cancer and Women's Health"

4th WORLD CONGRESS ON

BREAST CANCER AND WOMENS HEALTH

OCTOBER 19-21, 2023 | VALENCIA, SPAIN

https://breastcancer.pulsusconference.com/

INVITATION

BREAST CANCER 2023

Dear All,

It's our great honour to welcome you all to the "4th World Congress on Breast Cancer and Women's Health" scheduled during Oct 19-21, 2023 in Valencia, Spain.

Breast cancer and women's health are critical areas that have gained significant attention and research in recent years. Breast Cancer 2023 is a platform to unite and collaborate with leading experts, researchers, and healthcare professionals from across the globe to share knowledge and expertise, exchange innovative ideas, and explore the latest advancements in the field.

The congress will provide a unique opportunity to present and discuss new research, therapies, and strategies for the prevention, diagnosis, and treatment of breast cancer and other women's health-related issues. It will be an excellent forum for networking and building collaborative relationships with peers and experts, including academics, clinicians, industry leaders, and policymakers.

The theme of the 4th World Congress on Breast Cancer and Women's Health is "Empowering Women: Uniting for Breast Cancer and Women's Health."

We invite you to join us at Breast Cancer 2023 in Valencia, Spain, to share your expertise, learn from leading experts, and contribute to advancing research and improving the health and well-being of women worldwide. We look forward to welcoming you to this exciting and transformative event.

Regards,
Sophie Taylor | Program Manager
Organizing Committee | Breast Cancer 2023

Years Excellence

ABOUT US

Pulsus Group is an internationally renowned peer-review publisher in scientific, technical, and medical journals established in the year 1984 with offices in Ontario, Canada and Hyderabad, India has acquired Andrew John Publishing and openaccessjournals.com to expand its Open Access Publishing through its 50+ journals in association with 20+ International medical and scientific societies.

Pulsus through its cmesociety.com is been very instrumental to provide an invaluable channel for scientists and researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between universities, institutions, research bodies and organizations from different countries through international CME/CPD accredited conferences and meetings.

Pulsus Group is a Medical publisher that adheres to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. Pulsus Group takes pride in getting the endorsements of prestigious associations and societies like Canadian medical societies. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.Pulsus group is closely associated with globally renowned academic and research societies like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand.

MARKET ANALYSIS

Breast cancer is a significant public health issue globally, affecting both men and women. The incidence of breast cancer has been increasing, and it is the most common cancer in women worldwide. Market analysis of breast cancer is essential to understand the current and future trends in the breast cancer treatment market. Breast cancer is a major health concern for women worldwide, accounting for the second most common cancer among women after lung cancer. In 2020, an estimated 2.3 million new cases of breast cancer were diagnosed globally, with over 685,000 deaths attributed to the disease. Breast cancer is a complex disease that requires early detection and treatment to improve survival rates and quality of life for patients.

ABOUT VENUE

Valencia is a beautiful coastal city located on the eastern coast of Spain, known for its stunning architecture, rich history, and vibrant culture. Choosing Valencia as the location for a breast cancer conference offers a unique opportunity to combine the latest research and clinical advancements in breast cancer treatment with the cultural richness and charm of this Mediterranean city. Valencia is a bustling city with a rich history dating back to Roman times, and is home to numerous museums, galleries, and historic sites that offer insight into its unique cultural heritage. The city is also renowned for its impressive architecture, including the iconic City of Arts and Sciences complex, a futuristic complex of buildings designed by renowned Spanish architect Santiago Calatrava. Beyond its cultural attractions, Valencia is home to world-class medical facilities that offer cutting-edge breast cancer treatment and research. The Valencia Institute of Oncology is one such institution, known for its innovative research into breast cancer biology, genetics, and treatment, as well as its clinical expertise in the diagnosis and management of breast cancer.

Choosing Valencia as the location for a breast cancer conference offers a unique opportunity to showcase the latest research and clinical advancements in breast cancer treatment and management to a global audience. The city's world-class medical facilities and research institutions, combined with its rich cultural heritage, make it an ideal location for fostering collaboration and knowledge-sharing among healthcare providers, researchers, and patient advocates. Moreover, Valencia offers a unique setting for attendees to connect and network in a relaxed and inspiring environment, away from the hustle and bustle of more traditional conference destinations. The city's stunning beaches, picturesque parks, and vibrant nightlife offer a perfect backdrop for attendees to unwind and socialize after a day of engaging with the latest research and clinical advancements in breast cancer treatment and management. Additionally, the city of Valencia is easily accessible by air, with regular flights from major European and international destinations.
