4TH WORLD CONGRESS ON

HEALTH CARE AND MEDICAL SCIENCE

MAY 16-17, 2024 | ROME, ITALY

https://medicalsciences.cmesociety.com/

INVITATION

MEDICAL SCIENCE 2024

Dear Colleagues and Medical Science Professionals,

Greetings from Medical Science Congress 2024.

On behalf of the Medical Science Congress Organizing Committee, it is my great pleasure to extend a warm and heartfelt welcome to all of you to the 4th World Congress on Health Care and Medical Science taking place from May 16-17, 2024 at Rome, Italy

As the Organizing Committee Member (OCM) for this prestigious event, I can assure you that we have put in our utmost efforts to curate an enriching and memorable congress experience for all participants. Our goal is to create a platform where medical professionals, researchers, scholars, and students can come together to share knowledge, exchange ideas, and foster collaborations to advance the frontiers of medical science.

This congress is not just an opportunity to showcase your research findings and expertise but also a chance to connect with like-minded individuals from around the world. The networking opportunities offered during the event could potentially lead to new partnerships, collaborations, and friendships that last a lifetime.

We encourage all participants to actively engage in discussions, share insights, and contribute to the vibrant scientific atmosphere that will permeate throughout the congress. Your active participation is vital in making this event a resounding success.

Once again, welcome to the Medical Science Congress 2024. Let us make the most of this opportunity to learn, grow, and inspire one another as we collectively shape the future of medical science.

Wishing you all a productive and fulfilling congress!

Warm regards,

Ali Kchaou

MARKET ANALYSIS

The health care system in Italy is a national health service that is regionally administered. All Italian citizens and foreign nationals residing in the nation under a regular permit are eligible for free universal coverage through this system. The Servizio Sanitario Nazionale (SSN) is the Italian term for the national healthcare system.

It is primarily financed by national and local taxes, with additional funding coming from private initiatives and private insurance plans, which are still not very common in Italy. The entire amount spent on health care in Italy in 2021 made up 9.5% of GDP. Approximately 75% of the total amount spent on health care was financed by the public sector.

Health care system & professionals

The regions are in charge of resource allocation and management as well as the delivery and promotion of health care services, while the national government establishes the guiding principles and standards of the healthcare system. However, the system's partial decentralization causes significant differences in the accessibility and caliber of healthcare among geographic areas.

The initial point of contact between patients and the national health system is family physicians, also known as general practitioners (GPs); pediatricians serve this role for those under the age of sixteen. With an average of 4.1 physicians per 1,000 people, Italy also takes pride in being among the nations with the highest doctor density

ABOUT VENUE

Rome, Italy, combines the captivating elements of historical grandeur with contemporary attractiveness to create a living monument to millennia of civilization. The aged stone of the Colosseum, the imposing dome of St. Peter's Basilica, and the exquisite elegance of the Trevi Fountain form the city's skyline. There are whispers of legends about Renaissance artists, gladiators, emperors, and modern-day romantics along every cobblestone street. The aroma of freshly made pasta wafts from quaint trattorias, beckoning patrons to sample the gastronomic wonders of the city. Within the Vatican Museums, where classic works of art adorn every wall, art and history blend together harmoniously. Vibrant street art adorning busy piazzas and tight alleys echo the energetic pulse of Rome.
