Market Analysis

The Neuroscience and Psychiatry market is showing steady growth, rising from about USD 32.5 billion in 2020 to over USD 65 billion by 2030, with a CAGR of around 7%–7.5%. This growth is driven by increasing awareness of mental health, rapid progress in Brain science, and expanding use of advanced technologies in healthcare.
Early growth was supported by telepsychiatry and rising focus on Stress, Addiction, Stroke, and Trauma Care. In recent years, strong advancements in AI, neuroimaging, and diagnostic tools have further accelerated market expansion, along with better understanding of Neurons and Brain function.

TARGET AUDIENCE

- Neuroscientists
- Neurobiologists & brain researchers
- Clinical neurologists
- Psychiatrists & mental health professionals
