6th INTERNATIONAL CONFERENCE ON

NEUROLOGY AND THERAPEUTICS

NOVEMBER 16-18, 2023 | PARIS, FRANCE

https://neurology.cmesociety.com/

INVITATION

NEUROLOGY 2023

We are honored to invite you to the 6th Edition Neurology 2023 International Conference, which will take place from November 16th to November 18th, 2023 in Paris, France. Leading neurologists, neuroscientists, researchers, and healthcare professionals from across the world will convene at the conference to share their skills and knowledge in the field of neurology.

The conference will include keynote addresses, plenary sessions, symposia, and poster presentations on a wide range of neurology-related issues. It will also give several possibilities for networking and engagement with peers and specialists.

We are excited to have you join us at this renowned event and look forward to hearing from you throughout the conference. This conference promises to be an interesting and instructive event, and we hope you will take advantage of this once-in-a-lifetime chance to enhance your knowledge, meet new colleagues, and explore Paris's beauty.

For more information about the conference, registration, and abstract submission, visit the conference's official website.

We are anticipating seeing you in Paris.

Thanks& regards,

Ellie Imogan | Program Director

MARKET ANALYSIS

In 2022, the worldwide Neurology market was worth USD 5,235.8 million in 2022 and is expected to expand at a compound annual growth rate (CAGR) of 5.6% from 2023 to 2038. This is largely attributed to increasing neurological diseases, such as dementia, stroke, and peripheral neuropathy, plus growing R&D investments in neurological research.

Sponsors and investors are becoming more interested in supporting neurological clinical research due to the significant burden of neurological illnesses worldwide. Neurological trials have received substantial funding throughout the years. For instance, in March 2022, the NIH awarded USD 16.0 million to a group of scientists from Brown University, New York University, and the University of Rochester to assist their work on Alzheimer's disease. Future sector market growth is anticipated to be supported by such activities.
