ABOUT US

Since many years Pulsus has also been very instrumental to provide an invaluable channel for scientists and researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between universities, institutions, research bodies and organizations from different countries through international conferences and meetings.

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

With a legacy of 30 years of excellence in Medical Publishing we are endorsed by various societies like International Academy of Cardiovascular Sciences, International Society of Addiction Medicine, European Biotechnology Thematic Network Association, World Federation of Paediatrics Intensive and Critical Care Societies, World Association of Medical Sciences, International Society for Ceramics in Medicine, Thalassaemia International Federation and World Association of Integrated Medicine to nurture the research and development for the beneficence of society.

MARKET ANALYSIS

In 2022, the dental care market in Italy was valued at $0.6 billion. Projections suggest that it will grow at a compound annual growth rate (CAGR) of 5.25% from 2022 to 2030, reaching $1.36 billion in 2030. The growth is anticipated due to factors such as the increasing prevalence of dental issues, a rising demand for cosmetic dental procedures, and the adoption of advanced dental technologies. The market is categorized by Product Type, Age Group, Sales Channel, and End User. Key players in Italy's dental care market include 3M, A-Dec Inc., Biolase Inc., Carestream Health Inc., among others.

Dental instruments are crucial tools used by dental professionals for various treatments, examinations, and procedures involving teeth and oral structures. Standard instruments encompass those used for examinations, restoration, extraction of teeth, and tissue manipulation. Italian dentists face multiple challenges, including a rise in patients, particularly in underrepresented social groups due to economic challenges. This could lead to a reduction in preventive and restorative care, essential for efficient and cost-effective healthcare.

The increasing elderly population has led to a rise in dental implants and oral surgeries. Several risk factors, such as smoking, poor oral hygiene, diabetes, medications, and hereditary conditions, contribute to dental diseases, driving market growth. The growing geriatric population and rising tooth decay rates are anticipated to increase the burden of oral diseases in the forecast period.

During the pandemic, the National Association of Italian Dentists (ANDI) collaborated with the National Chamber of Dentistry (CAO) and the Ministry of Health to coordinate crisis responses. An official commission was established to address dental health needs, safety measures for clinics, procurement and distribution of PPE, and reopening guidance. The commission facilitated organized communication and debate among various stakeholders involved in oral care, avoiding disorganized interactions with media and other institutions.

In the initial months of the pandemic, dentists in Italy were temporarily restricted from normal operations. However, as pandemic-related statistics improved, they were permitted to resume normal operations by adhering to specified operating procedures issued by the government's Scientific and Technical Committee overseeing the pandemic's Phase 2. The prosthodontic sector is poised for growth in the upcoming period. Prosthodontics, a dental specialty, involves the design, crafting, and placement of substitutes for damaged, fractured, or absent teeth.

TARGET AUDIENCE

- Dentists
- Dental auxiliaries
- Health Care Associations
- Dental universities
- Dental educators
- Dental practitioners
- Clinical experts
- Medical Colleges
- Research Faculty
- Dental Hygienists
- Diagnostic Laboratory professionals
- Business entrepreneurs
- Hard tissue scientist
- Brand manufacturers
- Marketing, Advertising, and Promotion agency executives

WHO SHOULD ATTEND

- Business Entrepreneurs
- Industry Professionals
- Directors/Managers/CEO's
- Presidents & Vice Presidents
- Brand Manufacturers
- Marketing, Advertising and Promotion Agency Executives
- Dental Students, Scientists, and Professors
- Dental Health Care Researchers
- Health Care Faculty
- Medical Colleges
- Health Care Associations and Societies
- Business Entrepreneurs
- Training Institutes
- Deans
- Dentists
- Dental Nurses
- Dental Product Manufactures

WHY TO ATTEND

Dentistry congress 2023 is an international platform for presenting research about diagnosis, prevention and management and exchanging ideas about it and thus, contributes to the dissemination of knowledge in Dental science and maxillofacial surgery for the benefit of both the academia and business. The organizing committee of this maxillofacial surgery Conference is gearing up for an exciting and informative conference program including plenary lectures, symposia, workshops on a variety of topics, poster presentations and various programs for participants from all over the world.

ABOUT VENUE

Rome, the capital of Italy, is a city with a rich history that spans over 2,500 years. It was once the center of the Roman Empire, which played a significant role in shaping Western civilization. Today, Rome is a bustling metropolis with a mix of ancient and modern architecture, world-class museums, delicious cuisine, and lively neighborhood. Iconic landmarks of Rome include the Colosseum, the Roman Forum, and the Pantheon. The Vatican City is an independent city-state within Rome and the seat of the Catholic Church. It is home to St. Peter's Basilica and the Sistine Chapel. The Roman Forum, located nearby the Colosseum, was the center of political and social activity in ancient Rome. It was the site of public speeches, political rallies, and important ceremonies. The ruins of the Forum provide a glimpse into the daily life of the Roman Empire. The Pantheon is another iconic landmark in Rome. It was built in 27 BC as a temple to all the gods and is now a Catholic church. The Pantheon features a massive concrete dome with an oculus at the top, which lets in natural light. The dome is an engineering marvel, and it is still considered one of the largest unsupported domes in the world.
