8TH INTERNATIONAL CONFERENCE ON

PSYCHIATRIC AND NURSING 2024

JUNE 17-18, 2024 | LONDON, UK

https://psychiatricnursing.pulsusconference.com/

INVITATION

PSYCHIATRIC NURSING 2024

It is with great pleasure that I welcome you all to the ***8th International Conference on Psychiatry and Mental Health Nursing***. As we gather here, we celebrate the progress we have made in the field of Psychiatry, and look forward to the opportunities and challenges that lie ahead.

With our theme "Empowerment through Compassionate Care: Enhancing Wellness and Resilience". We invite you to embark on a transformative journey where innovative ideas converge, minds are revolutionized, and lives are positively transformed through the power of psychiatry and mental health nursing.

Upon the insights gathered from the previous conference, this year's event promises to be even more enriching and enlightening by bringing together experts, researchers, clinicians, and scholars from around the globe

Regards
Sahar Ali | Psychiatric Nursing 2024
Organizing Committee

ABOUT VENUE

London, city, capital of the United Kingdom. It is among the oldest of the world's great cities—its history spans nearly two millennia—and one of the most cosmopolitan. By far Britain's largest metropolis, it is also the country's economic, transportation, and cultural center. London's defining characteristic is an absence of overall form. It is physically a polycentric city, with many core districts and no clear hierarchy among them. London has at least two (and sometimes many more) of everything: cities, mayors, dioceses, cathedrals, chambers of commerce, police forces, opera houses, orchestras, and universities.

London, home to about 8.8 million people, is the capital and biggest city of both England and the United Kingdom. At the head of an estuary that stretches 50 miles (80 km) down to the North Sea, it is situated on the River Thames in southeast England. For almost two millennia, it has been a significant settlement. Roman Londinium laid the foundation for the City of London, which still has its medieval borders and serves as the city's financial and ancient core.

Being a major global city, London has a significant impact on media, science and technology, tourism, transportation, communications, education, fashion, entertainment, and finance. It is the largest urban economy in Europe and one of the world's principal financial hubs, with a GDP of €801.66 billion in 2017.

With more than 300 languages spoken there, London is a multicultural city. Greater London is home to slightly under 10 million people, making it the third most populous city in Europe as of 2023. This represents more than 16% of the population of England and 13.4% of the United Kingdom. The Greater London Built-up Area, with 9.8 million people living there as of the 2011 census, is the fourth most populous region in all of Europe.

Abstract submission opens: March 02, 2024 | **Registration opens:** March 02, 2024
Early bird registration: April 16, 2024 | **On spot registration:** June 17, 2024
