ABOUT US

Since many years Pulsus has also been very instrumental to provide an invaluable channel for scientists and researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between universities, institutions, research bodies and organizations from different countries through international conferences and meetings. Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

With a legacy of 39 years of excellence in Medical Publishing we are endorsed by various societies like International Academy of Cardiovascular Sciences, International Society of Addiction Medicine, European Biotechnology Thematic Network Association, World Federation of Paediatrics Intensive and Critical Care Societies, World Association of Medical Sciences, International Society for Ceramics in Medicine, Thalassaemia International Federation and World Association of Integrated Medicine to nurture the research and development for the beneficence of society.

MARKET ANALYSIS

The global therapeutic market for the central nervous system is projected to reach $112 billion by 2022, with a CAGR of 7.4% from 2021 to 2028. The market has been assessed in North America, Asia Pacific, Europe, Latin America, the Middle East, and Africa. The study provides detailed analyses of R&D initiatives, revenue, services, supply and demand, pricing strategy, consumption, export/import supply, and regional gross margins. As advancements in detecting and treating diseases of the central and peripheral nervous systems occur, the global treatment rate is expected to rise.

Alzheimer's disease, with a market share of over 34% in 2020, is expected to maintain its dominance due to its high prevalence and accessible diagnostic tools like amyloid PET tracers. Government and non-profit institutions offer research opportunities that could drive industry growth, such as the Biomarkers Across Neurodegenerative Diseases (BAND) initiative developed by organizations like the Michael J. Fox Foundation for Parkinson's Research (MJFF) and Alzheimer's Research U.K.

The Parkinson's disease market is projected to grow at a CAGR of 13.2% due to the increasing prevalence and the rise in clinical trials for disease-treating medications. As of 2020, over 930,000 Americans had Parkinson's disease, with approximately 60,000 new diagnoses annually. Innovative research studies are focused on improving the diagnosis of Parkinson's disease.

ABOUT VENUE

Barcelona, Spain, is a mesmerizing tapestry of contrasts, where the centuries-old embrace the avant-garde, and tradition dances alongside innovation. Its vibrant streets are an evolving canvas, painted with a unique blend of Gothic architecture, daring modernism, and daring street art. The heartbeat of the city reverberates through its architectural wonders. Antoni Gaudí's masterpieces, from the kaleidoscopic Sagrada Família to the dreamlike Park Güell, redefine the boundaries of imagination. But Barcelona's architecture is a rich mosaic, where medieval alleys in the Gothic Quarter converse with the sleek lines of the Torre Glòries. Catalan culture thrives in Barcelona's veins. Its language, traditions, and artistry are woven into the fabric of daily life. Local festivals, like La Mercè, transform the city into a surreal carnival, where giant papier-mâché figures dance alongside cutting-edge digital displays. The city's Mediterranean embrace extends to its culinary identity. From tucked-away tapas bars to Michelin-starred restaurants, Barcelona's gastronomic scene is a fusion of innovation and authenticity. Its markets, like the bustling La Boqueria, are living testaments to the region's rich produce and culinary heritage. Barcelona's rhythm is also set by its passion for football. Camp Nou becomes a cathedral of cheers as FC Barcelona takes the field, uniting a diverse fan base in a symphony of support. Yet, Barcelona's allure transcends its individual components. It's in the salty breeze that caresses the beaches, the mosaic-laden boulevards, and the late-night conversations in cozy plazas. It's the mosaic of languages echoing in its streets, and the shared experiences of locals and visitors. Barcelona is not just a city; it's a living, breathing art piece, where every cobblestone, every skyline, every taste tells a story. It's a place where history, dreams, and the pulse of modern life converge, inviting all who visit to be a part of its extraordinary narrative.
