Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Barcelona is all set for an amazing event as PULSUS proudly presents the "World Congress on Novel Trends and Advances in Biotechnology slated on November 28-29, 2018 at Barcelona, Spain.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Biotechnology from around the world to participate in the upcoming Advanced Biotechnology 2018. The meeting for this year will revolve around the theme "Explore Novel Trends in the Field of Biotechnology" thus relaying the most cutting edge findings in the field of Advanced Biotechnology. The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Conference Highlights

- Pharmaceutical Biotechnology
- Biotechnology and Bioprocess Engineering
- Industrial and Microbial Biotechnology
- Genetic Engineering and r DNA Technology
- Chemical Biotechnology
- Biosensors and Biomarkers
- Environmental Biotechnology
- Biotechnology in Health Care
- Genetics and Molecular Biotechnology
- Nano Biotechnology & Biomaterials
- Plant and Agriculture Biotechnology
- Cancer Biology and Immunology
- Animal Biotechnology
- Marine Biotechnology
- Stem Cell Biotechnology
- Food Biotechnology
- Bioremediation and Biodegradation
- Chemistry & System Biology
- Biotech Companies and Market Analysis
- Bioinformatics and Computational Biology

About PULSUS

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

About Advanced Biotechnology 2018

Advanced Biotechnology 2018 offers opportunity to go to the presentations conveyed by eminent experts from everywhere throughout the world. Participating in Advanced Biotechnology 2018 gives an approach to meet, cooperate with, and make contacts with different specialists in your claim to fame region. Biotechnology conferences unite people who have an enthusiasm for various fields of biotechnology like Plant Biotechnology, cancer Biotechnology, Animal Biotechnology, Chemical Biotechnology & Pharmaceutical Biotechnology, Genetics and Molecular Biotechnology from practice, research, administration, policy and education.

Target Audience

- Scientists and Researchers
- Laboratory members and Students working in the field of Biotechnology
- Biotechnology Young Researchers
- Biotechnology Faculty Members
- All Medical and Life Science Colleges
- Biotechnology and genetics Associations and Societies
- Business Entrepreneurs
- Training Institutes
- Worldwide Biotechnology Medicine Companies
- Exhibitors and Sponsors

Who should attend?

- Biotechnology Professionals
- Biotechnology Researchers, Students, biotech entrepreneurs, industry giants, biotech institutes
- Biology and Biotechnology Professionals to Exchange Ideas and Knowledge Networking at its 100+ international Conferences

Why to attend?

- Join your peers around the world focused on learning about Biotechnology, Agriculture Biotechnology, Pharmaceutical Biotechnology and Genetics and Molecular Biotechnology related advances, which is your single best opportunity to reach the largest assemblage of participants from the Biotechnology community Biology community, conduct demonstrations, distribute information, meet with current and potential professionals, make a splash with a new research works, and receive name recognition at this 2-day event. World-renowned speakers, the most recent research, advances, and the newest updates in Biotechnology and Genetics and Molecular Biology are hallmarks of this conference.

Market Analysis

In industries from agriculture to environmental science, biotechnology plays an important role in improving industry standards, services, and developing new products. Biotechnology involves the spectrum of life science-based research companies working on transformative technologies for a wide range of industries.

The global biotechnology market is expected to reach USD 727.1 billion by 2025, according to a new report by Grand View Research, Inc. The emergence of certain key themes in the biotechnology market is expected to drive growth in this industry to a lucrative extent.

The biotechnology sector in Spain continues growing year after year. To a large extent, this is due to its transversal character, because more and more companies from different sectors incorporate biotechnology activities to their products and services

There has been a growing increase of the turnover of biotechnology companies in the Spanish GDP. And that evolution has been constant, even in the years of the crisis. As evidence we have the values of 2014, year when that economic figure stood at 10.35%, and 2008, when biotechnology just supposed 2.98% of GDP. The value of 10.35% has even equaled digits of tourism in the country, one of the pillars of the Spanish economy.

This type of biotechnology comprises approximately 50% of all biotech companies in Spain. These companies are mainly engaged in products for human health, not only with regard to drugs, but also products and services related to molecular diagnostics, both to treat and to prevent disease.

Currently, Spain ranks as the second country with the highest number of biotechnology-related companies in the world, only behind the United States. In addition, Spain is leader in personalized medicine and in the development of innovative drugs for the treatment of cancer, Alzheimer's disease, autoimmune and infectious diseases, ranking among the top ten European countries in drug development.

About City and Venue

Barcelona is the capital city of the independent community of Catalonia in the Kingdom of Spain, and 2nd most crowded municipality with a population of 1.6 million within city limits. Its urban area ranges beyond the administrative city boundary with a population of around 4.7 million people, being the 6th most town area in the European Union after Paris, London, Madrid, the Ruhr area and Milan. It is the largest metropolitan area on the Mediterranean Sea, situated on the coast between the mouths of the rivers Llobregat and Besòs, and restricted to the west by the Serra de Collserola mountain series, the tallest peak of which is 512 metres (1,680 feet) high. Barcelona is one of the world's foremost tourist, economic, trade fair and cultural centres, and its influence in commerce, education, entertainment, media, fashion, science, and the arts all contribute to its position as one of the world's major international cities.

Barcelona has a humid subtropical climate neighbouring a maritime Mediterranean climate, with mildly cool winters and hot, muggy summers, while the drizzliest seasons are autumn and spring.

The Gothic Quarter is the heart of the old city of Barcelona. Barcelona is the home of many interest points declared World Heritage Sites by UNESCO. It has an abundant number of museums, which cover different areas and eras.
