Cardiology is the branch of medicine which deals with the Diseases, Disorders, Diagnosis of Heart and its Treatment. Cardiology is derived from the Greek word "Cardia" which refers to Heart. Major Cardiovascular Diseases are Heart and Blood vessel disease which include Atherosclerosis, Heart Attack, Ischemic Stroke, Heart Failure, Arrhythmias and other Heart Valve Problems. Primary prevention is crucial in reducing the burden of cardiovascular disease, which is the leading cause of death worldwide. In the era of precision medicine, primary prevention strategies are increasingly focusing on fine-tuning the intensity of interventions to match individual patient risk. This Conference Advanced Heart 2018 focuses on the latest advances in the field of primary prevention, from lifestyle modification approaches to pharmacological and clinical interventions, to reduce the incidence of cardiovascular events.

Singapore is a sovereign city-state with a total land area of only 682.7 square kilometers and is home to one of the world's biggest ports. Singapore is made up of sixty-three islands and the most densely populated independent country in the world. Singapore is famous for being a global financial center, a shopping paradise, and as a spot for a variety of activities, dining and entertainment.

Almost everyone would have seen an image of the city's symbol, the Merlion, and this makes our list alongside the nearby Marina Bay Sands Sky Park and Singapore Flyer – both of which offer Breath-taking views across the iconic Singapore skyline.
