Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Berlin is all set for an amazing event as PULSUS proudly presents the "5th International Conference on Advanced Material Research & Nanotechnology slated on September 17-18, 2018 at Berlin, Germany.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Cancer from around the world to participate in the upcoming Advanced Materials 2018. The meeting for this year will revolve around the theme "Future Outlook in the Field of Advanced Materials and Nanotechnology" thus relaying the most cutting edge findings in the field of Advanced Materials. The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Conference Highlights

- Advanced Optical Materials
- Smart Materials
- Engineering Materials
- Advanced Composite Materials
- Functional Graded Materials(FGM)
- Nano Materials
- Nano Medicine
- Nanoelectronics
- Nanorobotics
- Tools and Instruments of Nanotechnology
- Nanotechnology Applications
- Nanolithography
- Implications of Nanotechnology
- Energy Harvesting Materials
- Nanophotonics

About PULSUS

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

Materials that represent advances over the traditional materials that have been used for hundreds or even thousands of years. From this perspective, advanced materials refer to all new materials and modifications to existing materials to obtain superior performance in one or more characteristics that are critical for the application under consideration. They can also exhibit completely novel properties. Advanced materials typically have properties that are superior to and outperform conventional materials in their applications. The development of advanced materials is associated with the generation of new knowledge and intellectual property (IP). The development of advanced materials can even lead to the design of completely new products. Advanced materials may also be remarkably adaptable. The advanced materials industry encompasses a full life cycle from materials extraction, primary production, process development and materials characterisation to product fabrication, testing, use and end-of-life waste management and recycling.

Target Audience

- Mechanical Engineers
- Automobile Engineers
- Industrial Engineers
- Material Science Engineers
- Chemical Engineers
- Metallurgical
- Academic Scientists
- Students
- Diagnostic laboratory professionals
- Business Entrepreneurs
- Industry professionals
- Directors/Managers/CEO's
- Presidents & Vice Presidents
- Brand Manufacturers/ Marketers of Consumer Products
- Marketing, Advertising and Promotion Agency Executives

Who should attend?

- Business Entrepreneurs
- Training Institutes
- students
- Nanoscientists
- Material Science Engineers=

Why to attend?

- 10+ Keynote Speaker Session
- 50+ speaker faculty over 2 full days sharing Evidence Based Nursing practice
- 5+ Workshops
- 13 Interactive sessions
- Mixture of Health care units and Academia Delegates
- Networking

30 YEARS OF EXCELLENCE IN MEDICAL PUBLISHING

Berlin is a beautiful city of culture, politics, media and science and technolgy. Its economy is based on high-tech firms and the service sector,and it holds a diverse range of creative industries, research facilities, and convention venues. Berlin serves as a continental hub for air and rail traffic and has a highly complex public transportation network. Significant industries also include IT, pharmaceuticals, biomedical engineering, clean tech, biotechnology, construction and electronics. The city has a high density of internationally renowned research institutions, such as the Fraunhofer Society, the Leibniz Association, the Helmholtz Association, and the Max Planck Society, which are independent of, or only loosely connected to its universities. In 2012, around 65,000 professional scientists were working in research and development in the city.
