Journal of Sexual & Reproductive Medicine

About City and Venue

Paris is the capital and most populous city of France. Paris is located in northern central France, in a north-bending arc of the river Seine whose crest includes two islands, the Île Saint-Louis and the larger Île de la Cité, which form the oldest part of the city. Paris has a typical Western European oceanic climate which is affected by the North Atlantic Current. The overall climate throughout the year is mild and moderately wet. Paris has been one of Europe's major centres of finance, diplomacy, commerce, fashion, science, as well as the arts. The centre of Paris contains the most visited monuments in the city, including the Notre Dame Cathedral and the Louvre as well as the Sainte-Chapelle. Les Invalides, where the tomb of Napoleon is located, and the Eiffel Tower are located on the Left Bank south-west of the centre. For centuries, Paris has attracted artists from around the world, who arrive in the city to educate themselves and to seek inspiration from its vast pool of artistic resources and galleries. As a result, Paris has acquired a reputation as the "City of Art". Italian artists were a profound influence on the development of art in Paris in the 16th and 17th centuries, particularly in sculpture and reliefs. Painting and sculpture became the pride of the French monarchy and the French royal family commissioned many Parisian artists to adorn their palaces during the French Baroque and Classicism era.

Sponsorship

PULSUS
WWW.PULSUSCONFERENCE.COM

Why Sponsor Our Event?

- Maximum exposure at a premier conference devoted to those involved in the office professional industry.
