WORLD CONGRESS ON

ANESTHESIA AND PAIN MEDICINE

SEPTEMBER 28-30, 2023 | PRAGUE, CZECH REPUBLIC

https://anesthesia.cmesociety.com/

INVITATION

ANESTHESIA CONGRESS 2023

Greetings!

We cordially invite you to the World Congress on Anesthesia and Pain Medicine which is scheduled on September 28-30, 2023 at Prague, Czech Republic.

The theme of the conference is "Anesthesia and Pain Medicine: Emerging Technologies for Safe and Effective Care".

Anesthesia Congress 2023 promises to be an exciting and educational gathering of brightest minds in anesthesia and pain medicine, and we are delighted to have you all here with us.

For these three days, we will have the chance to learn about the most recent advances in anesthesia and pain management, share our knowledge and expertise, and participate in meaningful discussions that will help to shape our future profession's.

The program we've created is intended to cover a wide range of topics, with an emphasis on clinical practice and research advancements. We are confident that the presentations, workshops, and panel discussions will be interesting and thought-provoking for you.

Anesthesia Congress 2023 aims to provide an open and collaborative environment that promotes innovation and growth in the field of anesthesia and pain medicine. We encourage you to take advantage of the available networking opportunities and connect with peers from around the world.

We would like to extend a warm welcome to each and every one of you on behalf of the organizing committee. We hope you will find the congress useful, enjoyable, and informative.

We are looking forward to meeting you in Prague.

Regards

Matilda Scarlett | Program Director

MARKET ANALYSIS

The global anaesthesia and pain medicine market is expected to be worth USD 60.5 billion by 2027, growing at a CAGR of 3.6% during the forecast period. According to Grand View Research, the global anaesthesia and pain medicine market was worth USD 39.9 billion in 2020 and is expected to grow at a compound annual growth rate (CAGR) of 3.8% between 2021 and 2028.The increasing prevalence of chronic pain and the growing number of surgical procedures being performed are the key factors driving the growth of this market. The growing geriatric population, which is more prone to chronic pain and other health conditions that necessitate surgery, is also fueling growth in this market. Furthermore, the rising prevalence of lifestyle diseases such as diabetes and obesity, which can lead to chronic pain, is driving anaesthesia and pain medicine demand.
