Invitation

On behalf of Pulsus, **Nanomaterials Congress 2022** welcomes all the eminent researchers and students round the globe to be the member of "3rd World Congress on Nanoscience" scheduled on **June 17-18, 2022** at **Vienna, Austria**. The main objective of the congress is to succeed in the advancement within the field of Nanoscience and Nanotechnnology by the worldwide gathering and meeting of peoples from various diversities to share the knowledge through oral presentations, poster presentation and by the delivery of speech & lectures or as a delegate within the research forum.

Nanomaterials Congress 2022 is a world gathering that unites all the innovators to glaze the whole field of Nanomaterials and Nanotechnology and to experience the application of nanotechnology in modern days. it's the worldwide platform for all scholars, researchers, scientists, organizations, and industries to converse concerning the present developments, recent advances, new approaches, and future approaches and postoperative management for further advancements. The event comprises the varied aspects of Nanomaterials and with a replacement emerging new technologies\ with applied technologies of nanomaterials, molecular nanotechnology, and Tissue engineering in day to day practice are comprised within the conference.

Nanoscience congress 2022 is eagerly waiting in addressing all the participants, scholars, researchers, and industrial expects to form the gathering more successful. The International symposiums, B2B meetings, International workshops also will be organized to debate the precise topics within the field of arthroplasty.

Regards

Neema James | Nanomaterials Congress 2022

Organizing Committee

Conference Highlights

- Nanomaterials
- Nanotechnology
- Nanoparticles
- Nanophysics
- Nanorobotics
- Functional Nanomaterials
- Nanoscience and Technology
- Nanoelectronics
- Material Science
- Nanochemistry
- Nanomedicine
- Biomaterials
- Characterization and Synthesis of Nanomaterials
- Carbon Nanomaterials devices and technologies
- Graphene nanostructures and 2D materials
- Nuclear Materials and Radiation
- Nanocoatings
- Electronic Optical and Magnetic Materials
- Applications of Nanomaterials
- Nanomaterials Safety and regulations
- Scope of Nanomaterials
- NanoSatellites
- Nanomaterials manufacturing technologies
- Composite Materials
- Nanomaterials in Food, Agriculture, Water and Environment
- Future of nanomaterials

Agenda

Day-01- June 17, 2022

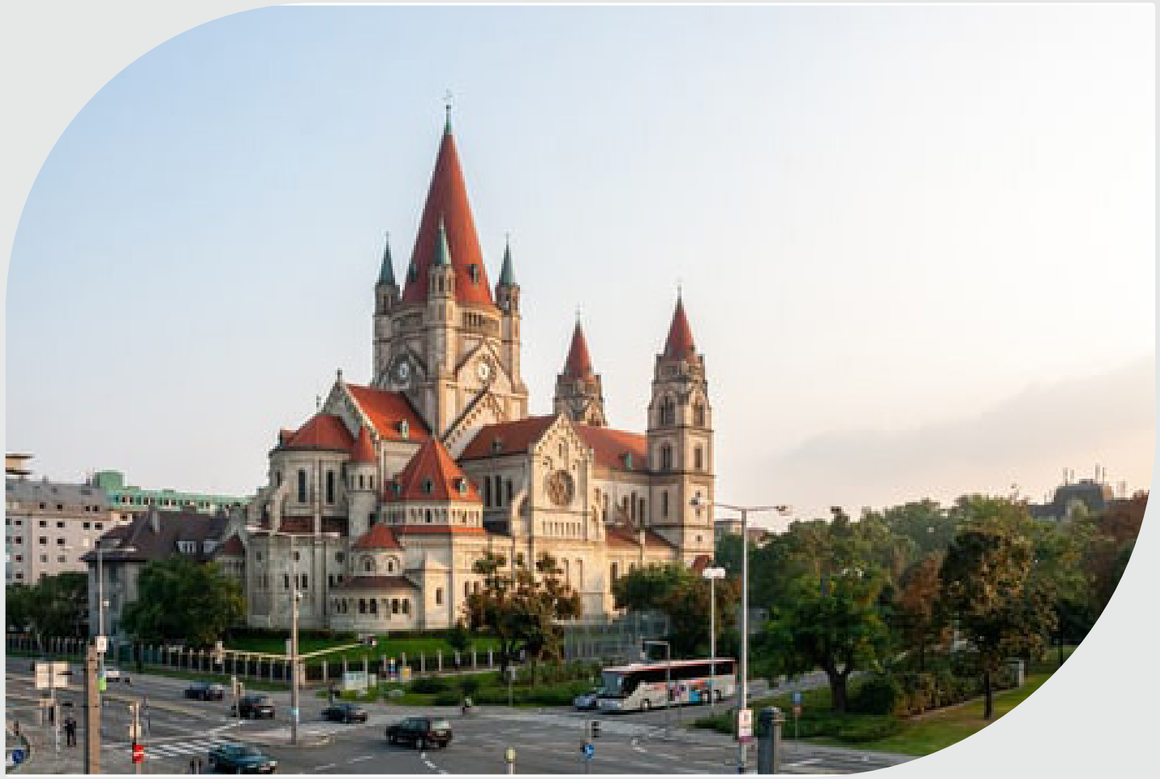

Time	Session
08:30-09:30	Registrations
09:30-11:30	Keynote Forum
Group Photo	
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Tracks: Nanomaterials | Nanotechnology | Nanoparticles | Nanophysics | Nanorobotics | Functional Nanomaterials
13:00-13:45	Lunch Break**
13:45-16:00	Tracks: Nanoscience and Technology | Nanoelectronics | Material Science | Nanochemistry | Nanomedicine | Biomaterials
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Tracks: Characterization and Synthesis of Nanomaterials | Carbon | Nanomaterials devices and technologies | Graphene nanostructures and 2D materials | Nuclear Materials and Radiation | Nanocoatings

Tentative

Day-02- June 18, 2022

Time	Session
08:30-09:30	Registrations
09:30-10:30	Keynote Forum
10:30-11:30	Tracks: Electronic Optical and Magnetic Materials | Applications of Nanomaterials | Nanomaterials Safety and regulations
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Tracks: Scope of Nanomaterials | NanoSatellites | Nanomaterials manufacturing technologies
13:00-13:45	Lunch Break**
13:45-16:00	Tracks: Composite Materials | Nanomaterials in Food, Agriculture, Water and Environment | Future of nanomaterials
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Poster Presentations
Day Concludes	
Award Ceremony	

Tourist Attractions

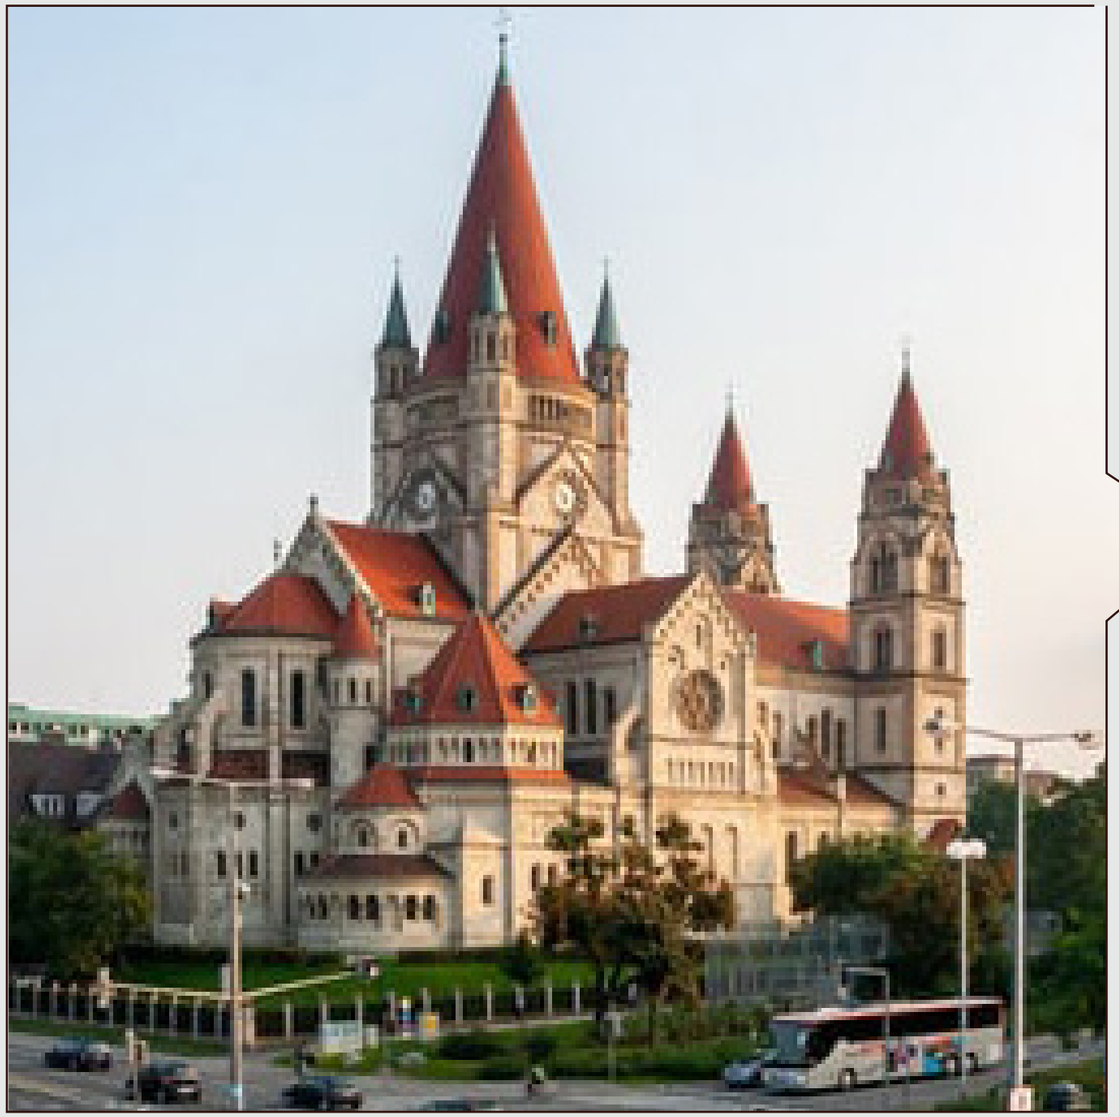

Venue

Vienna, Austria's capital, lies in the country's east on the Danube River. Its artistic and intellectual legacy was shaped by residents including Mozart, Beethoven and Sigmund Freud. The city is also known for its Imperial palaces, including Schönbrunn, the Habsburgs' summer residence. In the Museums Quartier district, historic and contemporary buildings display works by Egon Schiele, Gustav Klimt and other artists.

Vienna is probably one of the most beautiful cities in the world. It is the centre of arts and classical music and it offers things to do for several days. Vienna has even won the title of the world's most liveable city and pushed Melbourne to the second place. Vienna is a safe and fairly flat city. There is more wind than in London, meaning the air quality is better. Lots of London buildings are made in red brick, whereas the primary colour in Vienna is grey. The Viennese pass each other on the right, but in London everything is more chaotic. London is 75.7% more expensive than Vienna.

Hosted by PULSUS
