17th Annual Conference on Nephrology

December 04-05, 2017 Dallas, USA

Program at a Glance

Day 1

Reception/Registration		**08.00-09.00**	
		Time	**General Session**
Morning Sessions		09.00-09.15	Inaugural Address
	Least of 3 Keynote/Plenary Talks	09.15-09.45	Keynote/Plenary Talk 1
		09.45-10.15	Keynote/Plenary Talk 2
		10.15-10.45	Keynote/Plenary Talk 3
	Panel Discussions/Group Photo		
	Coffee/Tea Break 10.45-11.00 (Networking)		
	11.00-12.40		5 Speakers (20 Minutes Each)
	Lunch Break 12.40-13.30		
Evening Sessions	13.30-15.30		6 Speakers (20 Minutes Each)
	Coffee/Tea Break 15.30-15.45 (Networking)		
	15.45-17.25		5 Speakers (20 Minutes Each)

19 Speakers for **Day 1**

Day 2

	Time	**Session 1**	**Session 2**
Morning Sessions	09.00-10.40	5 Speakers (20 Min Each)	5 Speakers (20 Min Each)
	Coffee/Tea Break 10.40-10.55 (Networking)		
	10.55-12.35	5 Speakers (20 Min Each)	5 Speakers (20 Min Each)
	Lunch Break 12.35-13.25		
Evening Sessions	13.25-15.05	5 Speakers (20 Min Each)	5 Speakers (20 Min Each)
	Poster Sessions		

Awards & Closing Ceremony

30 Speakers on **Day 2**

NOTE: Program Schedule is subject to change with final allotment of the speaker slots

Tentative Program

Title: The Impact of treatment modality on employment and the economic benefit above the cost of providing direct treatment.
John D. Sullivan, Boston University, USA

Title: AKI IN INDIA: What are we looking at?
Sonia Gupta, Kidney Care Hospital, India

Title: Atypical Urinary Tract Infection to a patient with unique kidney
Manuela Stoicescu, University of Oradea, Romania

Title: Dual Role of kidneys in blood pressure regulation in patients with Autosomal Dominant Polycystic Kidney Disease (ADPKD)
Vladimir Voitovitch, Belarusian Centre of Transplantation Organs and Tissues, Belarus

Title: Limited Value and Prohibitive Risk of Percutaneous Coronary Interventions in patients with Advanced Chronic Kidney Disease
Ahmed Magdy, Cairo University, Egypt

Title: ACID-BASE BALANCE OF RENAL VENOUS BLOOD IN PATIENTS WITH SECONDARY HYPERTENSION
Vladimir Voitovitch, Belarusian Centre of Transplantation Organs and Tissues, Belarus

Title: Volumetric overload shocks in the patho-etiology of the transurethral resection prostatectomy syndrome and acute dilution hyponatraemia.
Ahmed N. Ghanem, Mansoura University, Egypt

Title: Prospective observational study on loin pain haematuria syndrome complicating symptomatic nephroptosis and the results of renal sympathetic denervation and nephropexy
Ahmed N. Ghanem, Mansoura University, Egypt

PULSUS

Title: Correlating MIS score with the Body composition measurements in predicting the Nutritional risk among Hemo Dialysis Patients
Merina E Alex, The Madras Medical Mission, India

Title: Comparison of Drug-eluting Stents and Bare-metal Stents in Dialysis Patients: A Systemic Review and Meta-analysis
Weiwei Xu, First Affiliated Hospital, China

Title: When You Hear Hooves, it's a Zebra: Radiation Induced Tumor Lysis Syndrome in Bronchogenic Adenocarcinoma
Sean Stuart, Naval Medical Center Portsmouth, USA

Title: Medicare Telehealth Service and Nephrology: Policies for Eligibility and Payment
Stephanie Frilling, Center for Clinical Standards and Quality
Baltimore, USA

Title: Discontinuation of Peritoneal Dialysis after Late Initiation of Eculizumab in a Case of Familial Atypical Hemolytic-Uremic Syndrome: A Case Report
Rafael Alonso Valente, Hospital Clínico Universitario de Santiago de Compostela, Spain

Title: To assess the efficacy and safety of second line drugs used at our center in frequently relapsing and steroid dependant (FR/SD) childhood nephrotic syndrome.
Khalid Mirza, Saudi Arabia

Title: Prostatic adenocarcinoma (PCa) metastasizing to renal cell carcinoma (RCC) with periureteral tumor deposit: A case of tumor-to-tumor metastasis (TTM)
Jonathan Salcedo Mendoza, St. Luke's Medical Center, Philippines

Title: Chronic Kidney Disease and Hypertension in India
Where are we heading?
Veerendra Singh, Ashwanipuram Japti Faizabad, India

Title: Randomized trial of rATg/Daclizumab vs. rATg/Alemtuzumab as dual induction therapy in renal transplantation: Results at 8 years of follow-up

PULSUS

Giselle Guerra, University of Miami Miller School of Medicine, USA

Title: Clinical Spectrum of crescentic glomerulonephritis-A single centre experience
Gaurav S Sharma, SMS Medical College & Hospital, India

Title: Long term efficacy of Extracorporeal Shock Wave Therapy [ESWT] for treatment of refractory Chronic Abacterial Prostatitis.
Ghazi Mohammad Al-Edwan, University of Jordan, Jordan

Title: To determine the usefulness of the association of Resistance Index (RI) values in renal arcuate arteries and creatinine clearence (Cl Cr) levels in order to predict or detect acute renal rejection (RA) in a kidney transplant patient.
Ricardo Luis Cobeas, Argentina

Title: Comparison of the Efficacy of Tacrolimus Versus Cyclosporine in the Treatment of Idiopathic Membranous Nephropathy
Sima Golmohammadi, Kermanshah University of Medical Sciences, Iran

Title: Outcome of Patients after Second, Third and Fourth Kidney Transplantation
Supuni Patabendhi, Charité University Hospital Berlin, Germany

Title: Arterial Calcification in Chronic Kidney Disease: Whom? When? and How to Handle?
Usama Abdel Azim Sharaf El Din, Cairo University, Egypt

Title: Etiological Survey of Chronic Kidney Disease Patients on Maintenance Hemodialysis in Different Centers of Chittagong, Bangladesh
Rajat Sanker Roy Biswas, Chattagram Maa Shishu O General Hospital, Bangladesh

Title: Pharmacokinetics and Pharmacodynamics of Tolvaptan in Autosomal Dominant Polycystic Kidney Disease: Phase 2 Trials for Dose Selection in the Pivotal Phase 3 trial
Susan E. Shoaf, Otsuka Pharmaceutical Development & Commercialization,USA

Title: PLASMAPHERESIS – A SINGLE CENTRE EXPERIENCE
Harini Agnes, Care Hospital, India

PULSUS

Title: Serum albumin values and trace elements in children suffering from sickle cell anemia: A report from Kasumbalesa, the Democratic Republic of Congo.

Olivier Mukuku, University of Lubumbashi, Democratic Republic of Congo

Title: A study of molecular characterization and biochemical changes of micro organism at tip of catheters of all the interventional procedure done in CKD patients with or without diabetic mellitus from developing country.

P.Gupta, India

Title: A distal mode of renal denervation in segmental branches of renal artery versus conventional main trunk therapy: 12 months study in patients with resistant hypertension.

S. Pekarskiy, Cardiology Research Institute, Australia

Title: Therapeutic Potential of Oxalobacter formigenes-derived Bioactive Factors for Hyperoxaluria, Hyperoxalemia, and related Kidney Stones

Hatim A. Hassan, The University of Chicago, USA

Title: Dietary Reduction of Advanced Glycation End Products: An Opportunity for Improved Nutrition Care

Joanne Cooke, Kansas City VA Medical Center, USA

Title: Thrombotic microangiopathy induced by long-term interferon beta therapy in patients with multiple sclerosis

Marco Allinovi, University of Florence, Italy

Title: Fungal Urosepsis in a susceptible preterm baby presenting with acute renal failure

Nikhil Kulkarni, Jupiter Lifeline Hospitals, India

Title: ACUTE RENAL INSUFICIENCY

Sonja Hodzic, University Hospital Centre Zagreb, Croatia

Title: Mutation spectrum of genes associated with steroid-resistant nephrotic syndrome in Chinese children

Wang Ying, Central South University, China

PULSUS

Title: Vancomycin-associated acute kidney injury: A cross-sectional study from a single center in China
Ying Zhou, Peking University First Hospital, China

Title: Salvage Surgery After Renal Mass Ablation
Brian W. Cross, University of Oklahoma Health Sciences Center, USA

Title: A Deleterious Combination Of Intravenous Drug Usage With HIV and Chronic Hepatitis Infection; How Renal Replacement Therapy Emanated?
Christian Castillo Latorre, USA

Tittle: Calcitriol in the treatment of IgA nephropathy with non-nephrotic range proteinuria: a metaanalysis of randomized controlled trials
Jin Deng, University of South China, China

Title: Renal transplantation in sub-Saharan Africa: a case of Tanzania
Silvestre Arze, Centro Medico Quirúrgico Boliviano Belga, USA

Title: Renal transplantation in sub-Saharan Africa: a case of Tanzania
Onesmo A Kisanga, Muhimbili University of Health and Allied Sciences, Tanzania

Title: Seroconversion to Hepatitis B virus in maintenance hemodialysis patients: A case study
Azmina Nasir, Aga Khan university Hospital, USA

Title: Comparison of Enoxaparin Sodium and Standard Heparin for Hemodialysis Anticoagulation
Behshid Ghadrdoost, Iran University of Medical Sciences, Iran

Tittle: Efficacy, tolerability and safety of darbepoetin alfa injection for the treatment of anemia associated with Chronic Kidney Disease (CKD) undergoing dialysis: a randomized, phase-iii study

Sinha S, Hetero Labs Limited, India

PULSUS

SESSIONS AND TOPICS AT GLANCE

- Kidney
- Kidney Transplantation
- Geriatric Nephrology
- Nephrology Nursing
- Translational-Clinical Nephrology
- CKD -Mineral and Bone Disorders
- Kidney Stones
- Stages of Kidney Disease
- Diabetic Nephropathy
- Pediatric Nephrology
- Urology
- Drugs Used For Kidney Diseases
- Nephrotic Syndrome and Renal Failure
- Glomerular-Tubulointerstitial Disorders
- Nephrology Dialysis and Treatment
- Diet for Kidney Health

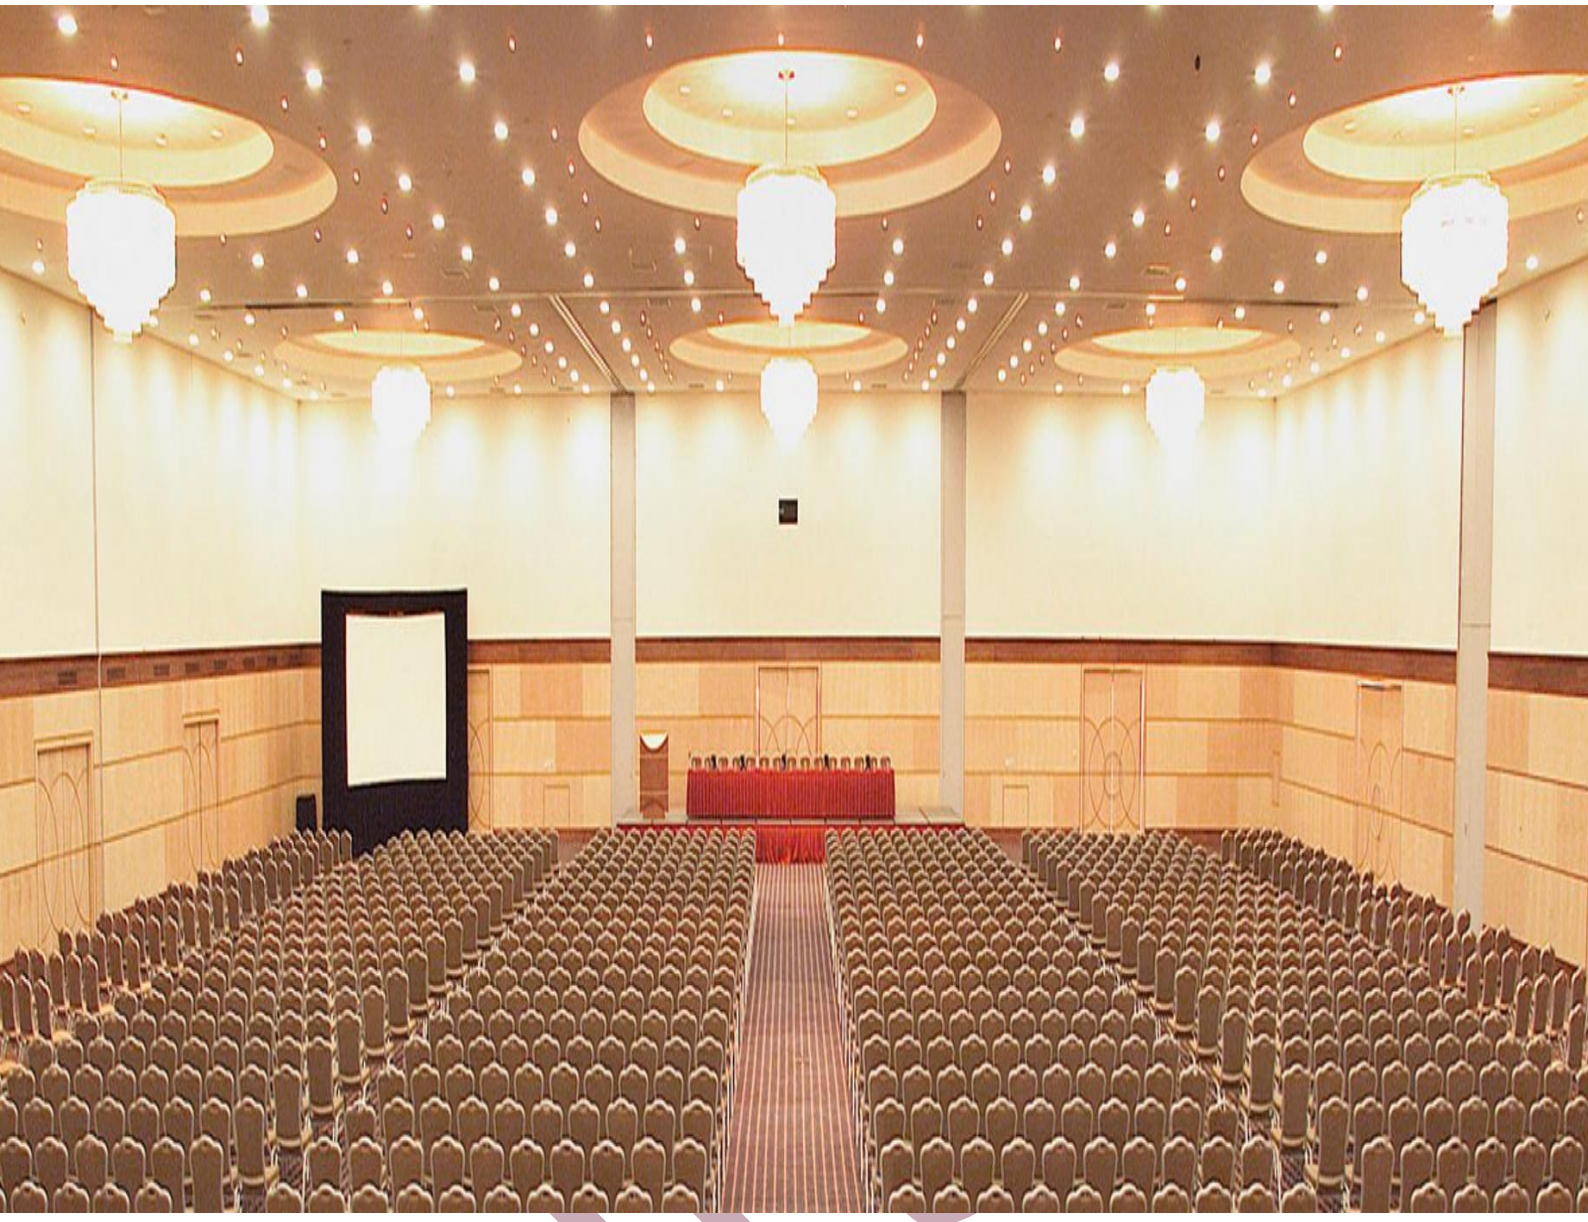
For Website: http://nephrology.cmesociety.com/

VENUE ADDRESS:

Dallas, Texas, USA

Embassy Suites by Hilton Dallas Park Central
13131 North Central Expressway Dallas
TX 75287
Texas, USA

PULSUS



ABOUT THE CITY

Dallas is a major American metropolis located in the state of Texas. The city is also the largest urban center of the fourth most populous metropolitan area in the United States of America. The city proper ranks ninth in the U.S. and third in Texas after Houston and San Antonio.

Dallas makes up one-fifth of the much larger urbanized area known as the Dallas–Fort Worth Metroplex, in which one quarter of all Texans live. Iconic examples of modernist architecture include Reunion Tower, the JFK Memorial, I. M. Pei's Dallas City Hall and Morton H. Meyerson Symphony Center. Good examples of postmodernist skyscrapers are Fountain Place, Bank of America Plaza, Renaissance Tower, JPMorgan Chase Tower, and Comerica Bank Tower. Dallas is a center of education for much of the south central United States. Dallas has many hospitals and a number of medical research facilities within its city limits. One major research center is the Dallas Medical District with the UT Southwestern Medical Center in the Stemmons Corridor, along with the affiliated UT Southwestern Medical School.

The city was founded at the location of a "white rock crossing" of the Trinity River, where it was easier for wagons to cross the river in the days before ferries or bridges. The lake and surrounding park is a popular destination for boaters, rowers, joggers, and bikers, as well as visitors seeking peaceful respite from the city at the 66-acre. The best tourist’s attractions in the Dallas are: dallas world aquarium, dallas museum of arts, Reunion tower, sixth floor museum at dealey plaza, the dallas arboretum and botanical garden and dallas zoo.
