Market Analysis

In Modern times, over a span of two decades, not many primary industries have consistently reported high annual growth. Aquaculture has sustained global growth, continues to grow, and the shortfall in aquatic food products due to stagnant or diminishing catch fisheries and population growth is expected to increase well into 2025. Actual catch fishery production increased only marginally by 0.7 percent in the previous year to hit 90.6 million tons. World production of aquaculture, however, increased to 78 million tons overall. At the bottom of the food chain world aquaculture production is dominated by insects. Carp and shellfish represent a significant proportion of species grown for human consumption in developing countries (more than 70 per cent by volume). Feeding a global population of 9 billion by 2050 is a daunting challenge that includes academics, technical experts and world leaders.

Target Audience?

- Directors and CEO's of research-based firms
- Manufacturing Aquaculture Device Companies
- Marine researchers
- Aqua culturist and Oceanographers
- Academicians associated with Aquaculture Biology and Fisheries Science
- R & D Companies
- Aquaculture and Fisheries Sciences
- Marine and Ocean Associations societies
- Business entrepreneurs in Aquaculture and Fisheries Sciences
- Aquaculture & Fisheries Training Institutes
- Research students and PhD's
- Academicians associated with Aquaculture Biology and Fisheries Science

About City and Venue

Vienna

The Imperial capital of Austria offers a unique combination of imperial values and spectacular modern architecture. It lies in the country's east on the Danube River. Vienna has excellent drinking water quality maybe some of the best in any region. It is very tasty because it comes from the mountains nearby. Vienna Town is popular for its cultural events, imperial sights, coffee houses, cozy wine taverns and the distinctive charm of the Vienna. The city is also known for its Imperial palaces, including Shimbun, the Habsburgs' summer residence.

It has more internationally renowned museums, galleries, historic and contemporary buildings show work by Egon Schiele, Gustav Klimt and other artists in the Museums Quartier district. The Vienna Philharmonic Orchestra is one of the best in the world, the Staatsoper one of the leading opera houses in the world and the Vienna Boys ' Choir one of the most popular choruses in the world. Vienna is one of the best cities you ever will visit. Public transport is secure at all hours and, like the vast majority of streets, the tourist parts of the city are very safe to walk at any time. The special feature of this is the numerous green spaces and recreational areas in Wien, such as the Wienerwald, the Prater and the Donauinsel.

Vienna's best time to visit is April through May, or September through October. The warm spring and fall weather bring small crowds. Many tourists are looking to enjoy the warm, sunny weather Vienna is experiencing during the summer months. We declare that the Vienna, Austria will be a best place for Aquaculture 2020 conference.
