International Conference on

Arthroplasty 2017

SEPTEMBER 21-22, 2017

Zurich, Switzerland

PULSUS is all set for an optimistic tone for the conferences to escalate medical & scientific know-how and create cognizance on the latest research findings & unfoldings in a manner that testifies not only brilliance but also transparency

Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Madrid is all set for an amazing event as PULSUS proudly presents the "**Arthroplasty 2017**" on **September 21-22, 2017**

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Arthroplasty from around the world to participate in the upcoming Arthroplasty 2017. The meeting for this year will revolve around the theme "Current Trends in Arthroplasty" thus relaying the most cutting edge findings in the field of Arthroplasty.

The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach.

Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Regards

Arthroplasty 2017

Conference Highlights

- Orthopaedic trauma
- Treatment of fractures
- Complications of fractures
- Injury to joints: dislocation and subluxation
- Injuries around the shoulder, fracture humerus
- Injuries around the elbow
- Injuries of the forearm and wrist
- Hand injuries
- Pelvic fractures
- Injuries around the hip
- Injuries around the knee
- Fracture shaft of femur
- Injuries to the leg,ankle and foot
- Infections of bones and joints

Pulsus Group Conferences

300+ International Medical & Scientific Conferences, summits and events

Distinctive Features

- Attend and earn CE, CME & CPD credits.
- Learn about the latest developments in your field and aid your own growth.
- Meet your target audience & expand your B2B network.
- Get your research published in conference proceedings and renowned journals.
- Go live streaming on Youtube.
- Spread your knowledge. Conduct workshops, symposiums and exhibit your best products
- Call for Investors-Investors Meet

About Pulsus:

- PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.
- Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.
- Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. We want our conferences, societies, associations and the technology communities and companies who participate in them, to include, encourage, and recognize people of all races, ethnicities, genders, ages, and abilities. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Pulsus *Group takes pride in getting the endorsements of prestigious societies and medical research assosiations world wide.*

Market Analysis

The global orthopedic braces & support market was valued at € 3.0 Billion in 2014 and is expected to reach € 4.1 Billion by 2020, at a CAGR of 5.0% from 2015 to 2020.

Orthopedic braces and backings are devices that are used to support and strengthen muscles and joints. These are used in prophylaxis of injury and patient care settings, right from the emergency room through the hospitalization period to restoration and after care. Ligament injuries are one of the most common injuries in any sport; thus, braces and support systems are used to treat knee & ankle sprains, torn knee ligaments, and so on.

Sports injuries are one of the key chauffeurs for the foot & ankle braces & supports sector of the market. According to recent studies, several sports exploration academies have observed an increasing number of Serious bone injuries between professional as well as amateur sportspersons. The incidence amount of ligament tears and fractures is high and foot & ankle injuries in sports found over 20.0% of the whole sports injuries. Additionally, co-morbid circumstances, such as diabetes, obesity, and other vascular diseases lead to bone porosity, which poses high threat of bone fractures.

The global orthopedic braces and supports market is dominated by the orthopedic clinics segment; it is expected to raise at CAGR of 4.3% from 2015 to 2020. The OTC segment is estimated to grow at the highest CAGR of 6.1% from 2015 to 2020.

About City

The city of Zurich lies in the heart of Europe and at the center of Switzerland, on the northern shores of Lake Zurich. Its multicultural flair and the variety of leisure activities on offer attract guests from all over the world to this "region of short routes". Zurich is quick and easy to reach, whether by train, plane or private vehicle. Its international airport has direct connections with over 150 destinations. Just a 10-minute train ride from the airport and situated right in the city center, Zurich's Main Railway Station is regarded as a central European railroad hub. More than 400,000 people live in this experience, science and business center. Thanks to its top-quality infrastructure set amidst natural surroundings, it is a popular place for study and research. For example, at Zurich University or the Swiss Federal Institute of Technology Zurich (ETH); built by Gottfried Semper from 1858 to 1864, the ETH Zürich is today associated with 21 Nobel prizewinners.

Some 150 years ago, part of the city's fortifications was transformed into what is now arguably the most famous "Station Road" in the world, the Bahnhofstrasse. Zurich's shopping mile has contributed largely to the city's reputation as an El Dorado for shoppers and is a top address for international fashion labels, jewelry and watches. However, it is just one of the places where you can find urban Zurich labels; whether in Zurich-West or in the Aussersihl quarter, you often come across local brands where you least expect them. They inspire the fashion-conscious and cause a sensation far beyond Switzerland's borders – as has, for example, the cult label Freitag, with its unique style of bags and accessories.

Target Audience

- Arthroplasty Surgery Students, Scientists
- Arthroplasty Surgery Researchers
- Arthroplasty Surgery Faculty
- Medical Colleges
- Arthroplasty Associations and Societies
- Business Entrepreneurs
- Training Institutes
- Manufacturing Medical Devices Companies

City Attractions

- Lake Zurich
- Swiss National Museum
- Kunsthaus Zürich
- Rietberg Museum
- St. Peter, Zürich
- Zürich Opera House
- Lindenhof
- Haus Konstruktiv
