8th INTERNATIONAL CONFERENCE ON ARTIFICIAL INTELLIGENCE, ROBOTICS AND AUTOMATION

MARCH 16-18, 2023 | OSAKA, JAPAN

<https://artificialintelligence.pulsusconference.com/>

INVITATION

ARTIFICIAL INTELLIGENCE 2023

Artificial Intelligence 2023 invites to the “8th International Conference on Artificial Intelligence, Robotics and Automation” on March 16-18, 2023 in Osaka, Japan. The keynote presentations, oral presentations, poster presentations, seminars, and exhibitions make up the congress.

Artificial Intelligence 2023 aims to proclaim the understanding and proportion the brand-new ideas amongst professionals, students, and industrialists from the research area of Artificial Intelligence, Robotics, and Automation to share their studies and take part in interactive conversations on the occasion. This medical gathering ensures that transmitting the mind and thoughts will enable and maintain artificial intelligence based on the theme “Recent developments in Artificial Intelligence, Robotics and Automation, and Its Utilization”.

Artificial Intelligence, Robotics, and Automation integrate the knowledge of mechanical engineering, electronics, size, and manipulation with internal product and process design. Participate in the international to improve the performance of electromechanical devices using this expertise. Automation is made up of sophisticated controllers that instantly control and modify the Field-level devices.

Regards,
Carter Young | Program Manager
Organizing Committee | Artificial Intelligence 2023

CONFERENCE HIGHLIGHTS

- Artificial Intelligence
- Automation
- Robotics
- Mechatronics
- Intelligent System
- Human Centered Robotics
- IoT and Globalization
- Surgical Robots
- Robots in Industry
- Automation Tools
- Humanoid Robotics
- AI application in Industry and Engineering
- Role of Automation in Robotics
- Machine Learning
- Robotics and Mechatronics
- Artificial Intelligence in Healthcare
- Marine Robotics

35
Years Excellence

ABOUT US

Pulsus Group is an internationally renowned peer-review publisher in scientific, technical, and medical journals established in the year 1984 with offices in Ontario, Canada and Hyderabad, India has acquired Andrew John Publishing and openaccessjournals.com to expand its Open Access Publishing through its 50+ journals in association with 20+ International medical and scientific societies.

Pulsus through its cmesociety.com is been very instrumental to provide an invaluable channel for scientists and researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between universities, institutions, research bodies and organizations from different countries through international CME/CPD accredited conferences and meetings.

Pulsus Group is a Medical publisher that adheres to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. Pulsus Group takes pride in getting the endorsements of prestigious associations and societies like Canadian medical societies. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine. Pulsus group is closely associated with globally renowned academic and research societies like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancement de la Microchirurgie Canada, Canadian Society for Surgery of the Hand.

MARKET ANALYSIS

Artificial Intelligence, Robotics, and automation are referred to as the multidimensional field of technology that combines a variety of subjects such as mechanical engineering, electronics, computer engineering, telecommunications engineering, structures engineering, and manipulation engineering. ARM Holdings (United Kingdom), British Columbia Institute of Technology (Canada), Bosch Rexroth (Germany), Hennepin Technical College (U.S.). In the upcoming years, it is anticipated that the global artificial intelligence (AI) software industry would expand quickly, topping 126 billion dollars by 2025. Applications including machine learning, robotic process automation, and natural language processing are all part of the larger AI business.

With the help of platform and utility, the global market for artificial intelligence, robotics, and automation is split and examined. The marketplace is divided into online and offline segments according to the platform. Asia Pacific, North America, Europe, and the rest of the world are investigated alongside the global market for artificial intelligence, robotics, and automation guidelines in North America is anticipated to grow at the highest CAGR. One of the major factors supporting the Artificial Intelligence, Robotics, and Automation market in the area is the growth in the number of small and medium training institutes that sell robotics and automation learning.

TARGET AUDIENCE

- Research Scientists
- Academic Faculty
- Technologist
- Doctorates
- Industrialists
- Smart innovators
- Professors
- Ph. D Students
- Robotics doctorates
- Robotics Testers

WHO SHOULD ATTEND

- Software and Hardware Developers
- robotics and intelligent solutions manufacturers
- Researchers and Academics
- Representatives of the media
- Investment experts
- Student Researchers
- Defence Research Professionals
- Young Researcher
- Industry Representations
- Workshops
- Mechatronics expertise

WHY TO ATTEND

In Artificial Intelligence 2023, academic, industrial researchers, and scholars discuss cutting-edge scientific discoveries and technological advancements. Numerous panels, workshops, lunches with affinity groups, paper presentations, and scientific sessions led by renowned psychiatrists from across the nation will be among the conference's outstanding academic programming. Highlights of this conference include the most recent methods, advancements, and updates, as well as keynote sessions by eminent researchers who are internationally known.

- influential keynote speaker session
- 5+ Workshops
- 13 Interactive sessions based on evidence from 50+
- Speaker Faculty across 3 full days
- A mix of academic and healthcare delegations
- Interaction

WHY SPONSOR OUR EVENT?

Maximum exposure at a premier conference devoted to those involved in the office professional industry.

An opportunity to build and reinforce strategic relationships within the office professional industry.

Time to network with industry colleagues and key decision makers.

A cost effective way to reinforce your organization's brand and build brand awareness amongst a relevant audience.

Access to a broad network of industry partners from state and federal Government departments and the private sector.

Time to present latest innovations and new products or services to a pertinent audience, and showcase your expertise and capabilities.

Increased marketing opportunities including visibility on the conference website and associated marketing materials

DIAMOND SPONSOR \$10000

- Top billing logo recognition (Chamber website, event website, invitation/publicity, event signage)
- Three corporate sponsored workshop slots (audio visual included).
- Two complimentary exhibit booths with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm).
- Four complimentary registrations.
- One A4 color advertisement in the congress program or book of abstracts (excluding cover pages).
- 50% discount on both Extra Delegate Registrations and Booth

GOLD SPONSOR \$7500

- Logo recognition (Chamber website, event website, invitation/publicity, event signage)
- Two corporate sponsored workshop slot (must honor deadlines, catering and audio visual included).
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm).
- Three complimentary congress registrations.
- Logo recognition on congress website front page with link and logo recognition on congress sponsorship page.
- One A4 color advertisement in the congress program or book of abstracts (excluding cover pages).
- 50% discount on both Extra Delegate Registrations and Booth

SILVER SPONSOR \$5000

- Larger name recognition (Chamber website, event website, invitation/publicity, event signage)
- Two complimentary congress registrations.
- One corporate sponsored workshop slot (must honor deadlines, catering and audio visual included).
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm).
- One A4 color advertisement in the congress program or book of abstracts (excluding cover pages).
- 50% discount on both Extra Delegate Registrations and Booth

BRONZE SPONSOR \$3500

- Larger name recognition (Chamber website, event website, invitation/publicity, event signage)
- One complimentary congress registrations.
- One corporate sponsored workshop slot (must honor deadlines, catering and audio visual included).
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm).
- One A4 color advertisement in the congress program or book of abstracts (excluding cover pages).
- 50% discount on both Extra Delegate Registrations and Booth

EXHIBITION SPONSOR \$2500

- Larger name recognition (Chamber website, event website, invitation/publicity, event signage)
- One complimentary congress registrations.
- One corporate sponsored workshop slot (must honor deadlines, catering and audio visual included).
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm).
- Half Page A4 color advertisement in the congress program or book of abstracts (excluding cover pages).
- 25% discount on both Extra Delegate Registrations and Booth

ABOUT VENUE

Osaka also referred to as the Nation's Kitchen is well-known for its vibrant street food culture. Takoyaki, or fried octopus balls, are sold at several vendors. They resemble tiny donuts or hush puppies, but they have a warm octopus filling within! The savory pancake known as Okonomiyaki, which is frequently referred to as Japanese pizza, is another specialty of the city.

The Kansai region's residents, known as Osaka-jin, are renowned for being helpful and courteous to visitors. Despite the abundance of foreign restaurants and bars, don't be afraid to venture outside your comfort zone and visit a local establishment.

You miss out on a lot of what makes Japan special if you go all the way there and only stay in the big cities. Fortunately, Osaka is a great starting point from which to travel throughout the rest of Japan and to the western and southern regions of Honshu island.

Abstract submission opens: September 15, 2022 | **Registration opens:** September 15, 2022
Early bird registration: October 31, 2022 | **On spot registration:** March 16, 2023
