Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Dubai, UAE is all set for an amazing event as PULSUS proudly presents the "2nd World Congress on Bioinformatics & System Biology slated on October 15-16, 2018 at Dubai, UAE.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Bioinformatics from around the world to participate in the upcoming Bioinformatics 2018. The meeting for this year will revolve around the theme "Exploring Innovative Technologies in Bioinformatics" thus relaying the most cutting edge findings in the field of Bioinformatics Research. The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

About PULSUS

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Bioinformatics is a Research field that creates strategies and instruments for understanding natural information. As a Research field of bioinformatics consolidates Computer Science, Biology and Mathematics to investigate and build up the Biological information. Bioinformatics has been utilized for in silico examinations by utilizing various procedures. Bioinformatics indicates natural investigations that utilization PC programming as a major aspect of their techniques, and in addition a reference to examination that utilized more than once , especially in the field of genomics. Basic employments of bioinformatics incorporate the distinguishing proof of competitor qualities and single nucleotide polymorphisms. Frequently, such recognizable proof is sorted out with the point of better understanding the hereditary premise of ailment, one of kind adjustments, attractive properties. Bioinformatics developed errand of breaking down different kinds of information that incorporate amino acid sequence, protein domain, interactions, and protein structures

Target Audience

- Business Entrepreneurs
- Bioinformatician
- Researchers
- Professors
- Directors
- Young Scientist
- Assistant Professors
- Pharmaceutical leaders
- Business Delegates
- Industries
- Universities
- Software developing companies from pharma, biotech companies
- Faculty of Pharmaceutical Sciences
- Clinical pharmacists
- R&D Researchers

Who should attend?

- Students
- Research Faculty
- Biologist
- Researchers
- Bioinformatics Societies and Associations
- Business Delegates
- Head of Laboratories
- Post-Doctoral Fellows

Why to attend?

- 10+ Keynote Speaker Session
- 50+ speaker faculty over 2 full days sharing Evidence Based Nursing practice
- 5+ Workshops
- 13 Interactive sessions
- Mixture of Health care units and Academia Delegates
- Networking
