Pulsus Group welcomes you all to its new event, "**International Conference on Biomarkers and Biobanking**" to be held in Edinburgh, Scotland on January 10-11, 2022. It features a keynote presentation, innovators, academicians from across cancer sites.

The basis of Biomarkers 2022 is together prominent personalities and professionals from the field of pharmacy, medicine, and research who share similar interests and ideologies in relation to particularly common diseases in the oncology department. Biomarkers 2022 are intended to bring information about new advanced methodologies in the technologies used in biomarkers with the applications of Nanotech to curb nightmarish diseases such as cancer.

The conference will offer a broad platform to share vital and up-to-date innovations in the field of biomarkers, immunology, biotechnology, pharmacology, neurology, microbiology.

Biomarkers 2022 is a two-day scientific event, business meeting, fair and trade Webinar. Advances in Biomarkers 2022 bring an opportunity to discuss and learn about advances in biomarker research on access together with unique and international experts, scientists and decision-makers from both academia and industry around the globe to exchange knowledge, innovations, and research and expertise in the field of cancer treatments.

Regards
Biomarkers 2022
Organizing Committee

Conference Highlights

- Biomarkers & Biobanking
- Biomarkers in Oncology
- Clinical and translational biomarkers
- Cardiovascular Biomarkers
- Molecular Biomarkers
- Biomarkers in drug Discovery
- Applications in Biomarkers
- Blood Biomarker
- Biomarkers in Pharmacology
- Genomics and proteomics
- Biomarker in neuro- oncology
- Advancements in Biomarkers
- Biomarker in health and disorder
- Biomarkers for Noncancerous diseases
- Imaging Biomarkers
- Digital Biomarkers
- Biomarkers Testing
- Diagnostics and therapeutic Biomarkers

Market Analysis

PULSUS
WWW.PULSUSCONFERENCE.COM

The global biomarkers market is predicted to accomplish in USD 77.1 billion in 2026 from USD 44.1 billion in 2021 at a CARG of 12.7%. Growth within the biomarkers market is especially driven by factors like the growing importance of colleague diagnostics, increasing occurrence of cancer worldwide, improving funds & contributions for biomarker research, and continuous product originations.

COVID-19 Impact on the worldwide Biomarkers Market:

COVID-19 is a communicable disease caused by the foremost recently discovered novel coronavirus. Mostly unknown before the plague began in Wuhan (China) in December 2019, COVID-19 has shifted from a regional crunch to a worldwide outbreak. the planet Health Organization (WHO) legitimately declared the outbreak of COVID-19 a scourge.

A study performed by Diacaustic PLC (UK) on pursuing the diagnosis and biomarker testing rates for specific cancer types recommended that within the US market, the recently diagnosed metastatic non-small cell carcinoma patient levels declined over 30% from February of 2020 to March 2020. This stark fall by only one month also compressed the rates of KRAS, BRAF and EGFR testing, which are key biomarkers endorsing the acceptable selection of precision medicine therapies that gain certain patients. Exclusively, nearly 4,000 fewer EGFR tests were executed within the month when most of the country started strict “stay-at-home” orders, representing a 13% drop from the month. Declines were also seen in colorectal cancer (14% lower), acute prolonged myelocytic leukaemia (also 14% lower), carcinoma (8.4% lower) and ovarian cancer (8.6% lower).

On the opposing hand, many biomarkers also are playing a important role within the diagnosis of COVID-19. Biomarkers like C-reactive protein, serum amyloid A, interleukin-6, lactate dehydrogenase, neutrophil-to-lymphocyte ratio, D-dimer, cardiac troponin, renal biomarkers, lymphocytes, and platelet count. These markers showed drastically higher levels in affected role with severe difficulties of COVID-19 infection compared to their non-severe equivalents. Lymphocytes and platelet count showed considerably lower levels in critical patients equated to non-severe patients.

Target Audience

- Cancer researchers
- Biomarkers associations
- Scientists
- Clinical research organizations
- Biomarkers research scientists
- Student
- Oncologist
- Biotechnology professionals
- Biochemist
- Cell biologist
- Radiologist
- Pathologist
- Pharmaceuticals companies
- Medical companies
- Genetic researchers
- Immunologist
- Bioengineers

Why to Attend???

Biomarkers 2022 brings together experts from all aspects to satisfy and discuss the longer term of clinical research and therefore the importance of biomarkers in today’s world to survive with better health. This conference discusses technological developments, new discoveries, and up to date trends in biomarkers. there'll be lectures, interactions, discussions, keynote addresses, poster presentations, etc. This conference gives you an opportunity to find out more about biomarkers.

Why Sponsor Our Event?

- Maximum exposure at a premier conference devoted to those involved in the office professional industry.
- An opportunity to build and reinforce strategic relationships within the office professional industry.
- Time to network with industry colleagues and key decision makers.
- A cost effective way to reinforce your organization's brand and build brand awareness amongst a relevant audience.
- Access to a broad network of industry partners from state and federal Government departments and the private sector.
- Time to present latest innovations and new products or services to a pertinent audience, and showcase your expertise and capabilities.
- Increased marketing opportunities including visibility on the conference website and associated marketing materials
