Annual World Congress on

Biomarkers & Clinical Research

November 27-28, 2017 Atlanta, USA

Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in Biomarkers and its clinical researches. Listen to motivating keynotes from thought leaders with pioneers across the globe. Atlanta is all set for an amazing event as PULSUS proudly presents the "Annual World Congress on Biomarkers & Clinical Research" on November 27-28, 2017.

PULSUS cordially welcomes researchers, academicians, students and business professionals in the field of BIOMARKERS from around the world to participate in the upcoming BIOMARKERS CONGRESS 2017. The meeting for this year will revolve around the theme "Explore the latest Biomarkers development in health and clinical research" thus relaying the most cutting edge findings in the field of Biomarkers Research.

The two days meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach.

Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

PULSUS is all set for an optimistic tone for the conferences to escalate medical & scientific know-how and create cognizance on the latest research findings and unfolding in a manner that testifies not only brilliance but also transparency.

Conference Highlights

- Biomarkers
- Molecular Biomarkers
- Cancer Biomarkers
- Biomarkers and Diseases
- Biomarkers and Next-Generation Sequencing
- Transcriptional Profiling
- Biomarkers and Radiology
- Biomarkers and Pharmacology
- Exposure Response and Susceptibility
- Drug Discovery and Development
- Clinical Development & Case Studies
- Omics Technologies and Biomarker Discovery
- Biomarkers and Nanotechnology
- Biomarker Identification Technique
- Biomarkers for Toxicity Prediction
- Biomarkers and Pharma R&D
- Personalized medicines
- Advances of Biomarker Testing
- Current Researches in Biomarkers
- Clinical Applications of Biomarkers

About Pulsus:

- PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.
- Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.
- Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. We want our conferences, societies, associations and the technology communities and companies who participate in them, to include, encourage, and recognize people of all races, ethnicities, genders, ages, and abilities. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

Biomarkers are important for streamlining drug discovery and development. In addition, biomarkers can be widely used as a tool for disease diagnosis, personalized medication in clinical research. Study design and statistical analysis for biomarker research incorporates various tools from bioinformatics. It further involves patient segmentation and stratification by successful integration of diagnostic tools and clinical data annotation inclusive of classification distribution metrics and pattern recognition. The global market for biomarkers in data statistics is estimated at about $2.4 billion in 2011 and further projected to reach $7.6 billion by 2017 registering a CAGR of 18.3% during the period 2007-2017. The organizations involved are Affymetrix, Agilent Technologies, Biomax Informatics, Illumina, Qiagen, etc. amongst others across the globe.

Biomarkers Congress 2017 will provide an excellent opportunity for the budding scientists and young researchers through its special initiatives like Young Researcher Forum, Poster Presentation and E-poster and Live Streaming, B2B and Scientific Meetings.
