3rd INTERNATIONAL CONFERENCE ON

BIOMEDICAL AND BIO INSTRUMENTATION

FEBRUARY 09-10, 2023 | WEBINAR

https://biomedical.cmesociety.com/

INVITAION

BIOMEDICAL CONGRESS 2023

It is a tremendous honour for Biomedical Congress 2023 to extend this invitation to the scientists, researchers, experts, and delegates from all around the world for this wonderful event that supports individual care and cutting-edge research in the biomedical and bio instrumentation fields.

We concur that your assistance and knowledge are the most useful and significant component of a successful congress and a fantastic chance for aspiring scientists to interact with and contact with leading authorities from all around the world.

Delegates from universities and institutes find this event appealing since it allows them to meet with scientists. By attending the conference alongside their colleagues, interested individuals can confirm their attendance.

In the Biomedical and Instrumentation sectors, Biomedical Congress 2023 provides unique business, research, and market access prospects. Discover a field that interests you and be the first to learn about new, often unavailable information.

You will be able to explore the expanding industry and give your career and business new possibilities from all around the world by taking part in Biomedical Congress 2023.

ABOUT US

Since many years Pulsus has also been very instrumental to provide an invaluable channel for scientists and researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between universities, institutions, research bodies and organizations from different countries through international conferences and meetings.

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.v

With a legacy of 30 years of excellence in Medical Publishing we are endorsed by various societies like International Academy of Cardiovascular Sciences, International Society of Addiction Medicine, European Biotechnology Thematic Network Association, World Federation of Paediatrics Intensive and Critical Care Societies, World Association of Medical Sciences, International Society for Ceramics in Medicine, Thalassaemia International Federation and World Association of Integrated Medicine to nurture the research and development for the beneficence of society.

MARKET ANALYSIS

The Biomedical and Bio-instrumentation 2023 Webinar examines new advances and latest technologies. The biomedical Webinar deals with the latest advances in biomedical such as security and sensing, Radio threptic technologies, bio instruments for imaging and many others. It provides a unique platform for people engaged in their research work in this field. The conference captivates people from both the commercial and academic worlds and yet makes a connection with them and connects us with their recent achievements. We provide a good opportunity by admiring your updated research knowledge and also by publishing it in our journals. Webinar eventually provides a good gathering of bright personalities to keep us updated in the new biomedical research.

The market for medical devices was valued at USD 532.62 billion in 2021; over the projected period, it is anticipated to grow at a CAGR of almost 5.5 percent, reaching USD 734.39 billion in 2027. On the market, the COVID-19 epidemic had a conflicting effect. The epidemic still poses a serious threat to many nations today. The majority of pharmaceutical and biotech companies are concentrating their research and development teams on finding fresh compounds or leads to cure the corona virus sickness. Due to the COVID-19 supply chain disruption, there was a global shortage of essential medical equipment.

We give Academic Professionals & Scientists an unrivalled chance to develop their careers, learn about cutting-edge subjects, and connect with peers.

The conference's major objective is to examine recent developments in the academic professionals and scientists' fields. Dental professionals, academic institutions, and educators will have a great chance to share ideas and research discoveries at Biomedical Congress 2023.

TARGET AUDIENCE

- Biomedical Specialist
- Scientists and Professors
- Health-care professionals
- Young researchers
- Clinical Researcher
- Students and delegates
- Academic Deans / CEO's
- Business Entrepreneurs
- Research Faculties
- Rehabilitation Trainer

WHO SHOULD ATTEND

- Scientists and Professors
- Students, Interns and Residents
- Professors and researchers
- Deans and CEO's
- Research Faculties
- Assistant professors and Delegates
- Health-care Analysts
- Biomedical Specialists
- Industrial Staffs
- Societies & Associations

WHY TO ATTEND

Biomedical Congress 2023 Webinar with members from around the world focused on learning about global trends on emerging advances in the field of Biomedical and Bioinstrumentation, this is your best opportunity to reach the largest assemblage of participants from various fields of Biomedical Specialist's community.

The ICBBI 2023 event conduct presentations distribute information, conducts meetings with current and potential scientists, makes a splash with new developments, and receives name recognition at the this 2-day event. World-renowned speakers, the most recent therapeutic and Biomedical techniques, developments, and the Novel technologies and innovations with the Bioinstrumentation for better human life will play a hallmark in this Webinar.
