PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotesfrom thought leaders, or rub elbows with pioneers across the globe. London is all set for an amazing event as PULSUS proudly presents the"4th World Biotechnology Congress slated on May 20-21, 2019 at London, UK.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Biotechnology from around theworld to participate in the upcoming Biotechnology 2019. The meeting for this year will revolve around the theme "**A Scientific Extravaganza for the Innovations and development of research in Biotechnology** " thus relaying the most cutting edge findings in the field of Biotechnology. The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

About PULSUS

PULSUS
WWW.PULSUSCONFERENCE.COM

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupepour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientifi c societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from under represented groups by actively recruiting diverse speakers for our events,signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

PULSUS
WWW.PULSUSCONFERENCE.COM

Biotechnology is technology or set of techniques based on biology - biotechnology harnesses cellular and bio molecular processes to develop products and technologies that help improve our lives and the health. It includes manipulation of organisms on the molecular and genetic level to improve health, safety, nutrition and environment .Biotechnology is helping to heal the world by harnessing nature's own toolbox and using our own genetic makeup to heal the genetic diseases. In Current Scenario there are more than 250 biotechnology health care products and vaccines available to patients, many for previously untreatable diseases. More than 13.3 million farmers around the world were using agricultural biotechnology to increase yields of their farm and to prevent damage from insects, pests and reduce farming's impact on the environment. Modern biotechnology provides breakthrough on products and technologies to combat debilitating and rare diseases, reduce our environmental footprint, feed the hungry, and use less and cleaner energy, and have safer, cleaner and more effi cient industrial manufacturing processes. Recent advances in biotechnology are helping us prepare for and meet society's most pressing challenges and the ways to rectify it

Target Audience

- Biotechnologist
- Microbiologist
- Pharmacist
- Researchers
- Academic Scientists

About City and Venue

PULSUS
WWW.PULSUSCONFERENCE.COM

London- It is among the oldest of the world's great cities—its history spanning nearly two millennia—and one of the most cosmopolitan.

By far Britain's largest metropolis, it is also the country's economic, transportation, and cultural centre. London is also known as the Square

Mile, the fi nancial district, historic centre and the cultural capital of London. London has a population of 8.6 million and over 10 million visits

as tourists every year. London, known for its historical landmarks, oldest city that boasts four World Heritage Sites: Westminster Abbey, The

Palace of Westminster and The Tower of London, Maritime Greenwich and The Royal Botanic Gardens. London is the economic, political and

cultural capital of Britain. The city isn't all about history or historic buildings. There are many constructions in past decades, and today many

of London's tallest towers can be found, including the NatWest Tower which is the tallest skyscraper when it was built in 1980.
