It is an immense delight to extend our warm welcome to the event "**8th World Biotechnology Congress**", which includes Keynote Address, Oral Lectures, Poster Presentations, Exhibitions, Workshops, Young Research Forum and more on **October 04-05, 2021** in **Virtual Mode. The conference is organised around the topic "Advances in biotechnology: research and innovations". Biotechnology** 2021 shares an insight into recent findings and cutting-edge biotechnology innovations by improving and expanding well-known biotechnologies. The key aim of biotechnology 2021 is to put together a multi-disciplinary community of experts and experts from around the world mainly during this pandemic situation, to discuss and share break-through ideas on biotechnology. It promotes top-level analysis and to globalise the quality research in general, while making discussions, presentations more globally competitive and attracting emphasis on the recent excellent accomplishments in the field of biotechnology, and future developments and needs. Thus, biotechnology 2021 takes the Remote Society and Organization assemblage to consider all the biotechnology Practitioners who give admirable ideas and innovations to all. It promotes top-level analysis which reflects on recent excellent biotechnology accomplishments and future developments and needs. It offers insight into the new science and technology in the area of the biotechnology.

About PULSUS

PULSUS
WWW.PULSUSCONFERENCE.COM

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupepour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientifi c societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from under represented groups by actively recruiting diverse speakers for our events,signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

The Growing proceeding of chronic ailments like diabetes and cancer worldwide will primarily increases the market demand for biotechnology products. According to the International Diabetes Federation, in 2017, diabetes affected entirely 425 billion individuals worldwide and therefore the number is approximately to exceed 625 billion people by 2045. Thus, increasing currency of such chronic diseases due to various factors including lifestyle changes, stress and unhealthy dietary patterns, will handle the demand for effective drugs and vaccines, thus improving the industry progress over the forecast period.

Moreover, wide range applications of biotechnology, improving healthcare access in rural areas, fed up medical needs in define geographies and growing research and development investment in the field are some of the other factors that will stimulant the market revenue. In addition, increasing demand for bio based agricultural products and growing adoption of biotechnology practices in clinical research will speed up the market expansion. However, the risks related to genetic information may inhibits the industry growth to certain extent within the coming years.

According to the latest report of Spanish association, Spain is the country with the highest percentage of scientific articles in this field published in the esteemed journals of 83.3%. this document shows the growth of the biotechnology in terms of environmental trends,diversity,investment and financing in the last year. Spain is the country with the largest percentage of scientific articles in biotechnology. According to UN,spain is the best prepared countries for the future technologies. Spain holds 21st position out of 158 states thus placing because the group of nations best adapted to future changes with the very best scores within the study. Spain is strong in research and development of cutting-edge technologies which comes under in robotics and biotechnology.

The biotechnology market range was approximately at USD 752.88 billion in 2020 and is expected to reach USD 1,006.68 in 2021. The growth of biotechnology market growth is expected a rate of 15.83% from 2021 10 2028. The health application section held the largest market share of 48.64% in 2020. The others technology sector held the largest share of 27.83% in 2020. In this DNA sequencing the second largest share in 2021.nanobiotechnolgy is predicted to developed a CAGR of 16.8% from 2021 to 2028 to increasing technological advancements within the sector of nanotechnology.

Target audiences

- Scientists
- Researchers
- Academicians
- Young scientists
- Young researchers
- Delegates

Who should attend

- Bio technology Professionals.
- PhD Scholars/ Students.
- Industry professionals.
- Managers / Directors /CEO's.

Why biotechnology

- Biotechnology combines biology and chemistry with mathematics and physics to supply the resources needed for contemporary biology and biomedical research.
- Living cells and cellular materials are used in biotechnology to produce medicinal, diagnostic, agricultural, environmental, and other products that support humanity.
- It's also used to research and manipulate genetic material in animals in order to model and study human diseases.
- Biotechnology is both a fundamental and a practical science. Agriculture, health care, forensics, industrial processing, and environmental conservation all benefit from these developments

Why Sponsor Our Event?

- Maximum exposure at a premier conference devoted to those involved in the office professional industry.
- An opportunity to build and reinforce strategic relationships within the office professional industry.
- Time to network with industry colleagues and key decision makers.
- A cost effective way to reinforce your organization's brand and build brand awareness amongst a relevant audience.
- Access to a broad network of industry partners from state and federal Government departments and the private sector.
- Time to present latest innovations and new products or services to a pertinent audience, and showcase your expertise and capabilities.
- Increased marketing opportunities including visibility on the conference website and associated marketing materials

Diamond Sponsor: $10000

- Top billing logo recognition (Chamber website, event website, invitation/publicity, event signage)
- Three corporate sponsored workshop slots (audio visual included).
- Two complimentary exhibit booths with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm).
- Four complimentary registrations.
- One A4 color advertisement in the congress program or book of abstracts (excluding cover pages).
- 50% discount on both Extra Delegate Registrations and Booth

Gold Sponsor: $7500

- Logo recognition (Chamber website, event website, invitation/publicity, event signage)
- Two corporate sponsored workshop slot (must honor deadlines, catering and audio visual included).
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm).
- Three complimentary congress registrations.
- Logo recognition on congress website front page with link and logo recognition on congress sponsorship page.
- One A4 color advertisement in the congress program or book of abstracts (excluding cover pages).
- 50% discount on both Extra Delegate Registrations and Booth

Silver Sponsor: $5000

- Larger name recognition (Chamber website, event website, invitation/publicity, event signage)
- Two complimentary congress registrations.
- One corporate sponsored workshop slot (must honor deadlines, catering and audio visual included).
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm).
- One A4 color advertisement in the congress program or book of abstracts (excluding cover pages).
- 50% discount on both Extra Delegate Registrations and Booth

Bronze Sponsor: $3500
