Scientific Program

Biotechnology Congress 2022

Opening Ceremony/ Introduction 09:00-09:15

February 25, 2022 (Friday)

Keynote Forum

09:15-10:00

Title: A novel approach for enhancing disease and pest resistance in soybean
Madan K Bhattacharyya, Iowa State University, USA

Panel Discussion

Sessions on: Biotechnology | Plant Biotechnology | Food Biotechnology | Bio-Science | Gene Sequencing
| Genome Editing

10:00-10:30 Title: Axonal regeneration and beyond: New biotechnologies magnetically actuated to improve axon outgrowth

Alessandro Falconieri, University of Pisa, Italy

10:30-11:00 Title: Nicotinamide: A new NAD + dress for an old vitamin form in energy metabolism and inflammation

Josep Julve, Hospital de la Santa Creu i Sant Pau, Spain

11:00-11:30 Title: Oncogenic viruses and recombinant vaccines: HPV and HCV
Rachel siqueira de queiroz simões, Institute of Technology in Immunobiologicals, Brazil

Networking and Refreshment Break 11:30 -11:45

11:45-12:15 Title: Sudanese gums as prebiotic supplementation: What does it mean from a biotechnological and immune boosting perspective?

Ahmed A M Elnour, International Islamic University Malaysia, Malaysia

12:15-12:45 Title: Genetic diversity, expression and characteristics of protease genes of haloalkaliphilic bacteria from the saline habitats

Satya P Singh, Saurashtra University, India

12:45-01:15 Title: Tensiometry method for monitoring of animal fluids
Sergei Yu Zaitsev, Federal Research Center for Animal Husbandry, Russia

Thanks Giving and Closing Ceremony
