ABOUT VENUE

The Emirate of Dubai is the second largest of the seven United Arab Emirates but has the largest population. Burj Al Arab was eclipsed when Burj Khalifa cropped up. Size has been synonymous with Dubai as it continues to push the boundaries of construction. Dubai has been building the first, largest and biggest structures in the world over the past few decades. Dubai's cityscape is always transient and ever-changing with its constant urge to construct bigger and better attractions than before. Dubai constantly competes with itself, trying to magnetize tourists to a dream-like world of attractions. Dubai has emerged as a cosmopolitan metropolis that has grown steadily to become a global melting pot as well as a business and cultural hub. A first-time visitor to Dubai might get overwhelmed with the exciting attractions, activities, shopping and nightlife.
