Market Analysis

PULSUS
WWW.PULSUSCONFERENCE.COM

The global alternative medicine and therapies market size was over USD 30.0 billion in 2014. Notable drivers include lower side effects and growing patient awareness levels. Increasing geriatric population base, growing awareness about general health and well-being, and inclination towards leisure and relaxation are also likely to boost demand. According to the World Health Organization (WHO) in October 2014, the world's population of elderly people has doubled since 1980 and is projected to reach 2 billion by 2050. Moreover, the number of people over 80 years of age will be quadrupled to 395 million between 2016 and 2050.
