3rd INTERNATIONAL CONFERENCE ON

CANCER RESEARCH AND TREATMENT

OCTOBER 17-18, 2024 | LONDON,UK

https://cancer.pulsusconference.com/

INVITATION

CANCER 2024

Good Will,

Welcome to the 3rd International Conference on Cancer Research and Treatment

We are excited to have you join us in London on October 17-18, 2024. This Cancer 2024 marks a pivotal moment in advancing cancer research and therapies. Over the next two days, we'll delve into cutting-edge research, innovative treatments, and the latest oncology developments.

London's vibrant atmosphere and cultural richness will serve as a dynamic backdrop for our discussions. We encourage you to explore sessions aligned with your interests, network with fellow experts, and discover new pathways in cancer care. We hope your time at Cancer 2024 is both enlightening and inspiring.

Regards,
Marina Jenny | Cancer 2024

Years Excellence

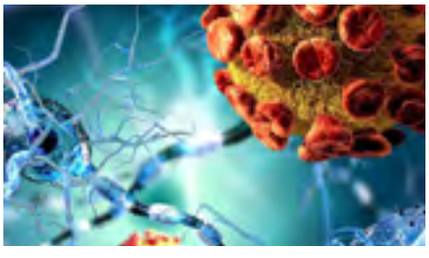

ABOUT US

Since many years Pulsus has also been very instrumental to provide an invaluable channel for Scientists and Researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between Universities, Institutions, research bodies and Organizations from different countries through International Conferences and Meetings.

Pulsus Group is an International Renowned Medical peer-review publisher and conference organizer established in the year 1984 publishes and hosts the work of Researchers in a manner that exemplifies the highest standards in research integrity.

With a legacy of more than 35 years of excellence in Medical Publishing we are endorsed by various societies like World Association of Medical Sciences, International Academy of Cardiovascular Sciences, International Society of Addiction Medicine, European Biotechnology Thematic Network Association, World Federation of Paediatrics Intensive and Critical Care Societies, International Society for Ceramics in Medicine, Thalassemia International Federation and World Association of Integrated Medicine to nurture the research and development for the beneficence of society.

MARKET ANALYSIS

The neurology sector is poised for significant growth through 2024, driven by increasing rates of neurological diseases, advancements in technology, and rising research funding. Despite challenges such as high costs and regulatory hurdles, ongoing improvements and expanding healthcare infrastructure are expected to open up new opportunities. The market, valued at USD 1.2 billion in 2020, grew to USD 2.4 billion by 2022 and was around USD 3.32 billion in 2023. It is projected to reach approximately USD 6.42 billion by 2032, reflecting a compound annual growth rate (CAGR) of 7.60%.

The surge in neurological disorders, including Alzheimer's and Parkinson's diseases, is a major driver of market expansion. Contributing factors include an aging population, improved diagnostic tools, and genetic influences. For example, Parkinson's disease impacts nearly 90,000 people annually in the U.S. Additionally, neurostimulation devices, which modulate brain activity to manage chronic pain and neurological disorders, are gaining popularity.
