5th INTERNATIONAL CONFERENCE ON

CANCER RESEARCH AND TREATMENT

AUGUST 20-21, 2025 | LONDON, UK

https://cancer.pulsusconference.com/=/

INVITATION

CANCER 2025

Dear Esteemed Colleagues,

It is with great honour that we invite you to the 5th International Conference on Cancer Research and Treatment, a global forum dedicated to advancing innovation and collaboration in oncology.

This conference serves as a premier platform to delve into the latest developments in cancer diagnostics, targeted therapies, immuno-oncology, and translational research. Join leading scientists, clinicians, and industry experts as we exchange pioneering ideas, clinical insights, and future perspectives in the fight against cancer.

Prepare for an engaging scientific agenda featuring high-impact presentations, expert-led panel discussions, hands-on workshops, and inspiring keynote addresses. This gathering in London will offer a unique opportunity to deepen your knowledge, refine your skills, and build meaningful partnerships with professionals across the cancer research community.

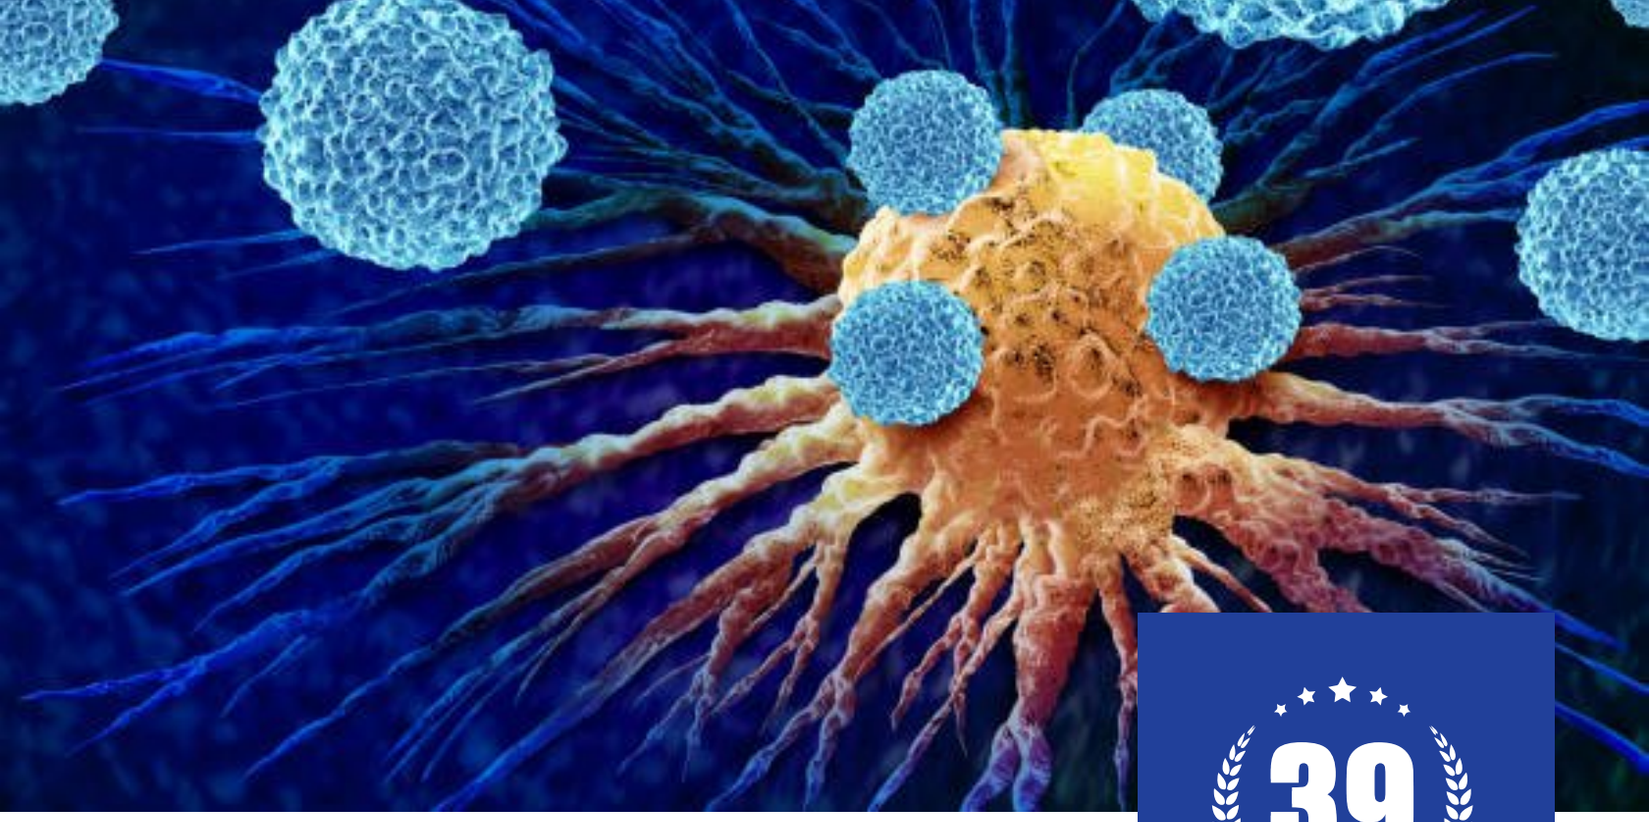

We are excited to welcome you to this vital event and look forward to your valuable participation in shaping the future of cancer care.

Warm Regards,
Ellie Rebecca

ABOUT US

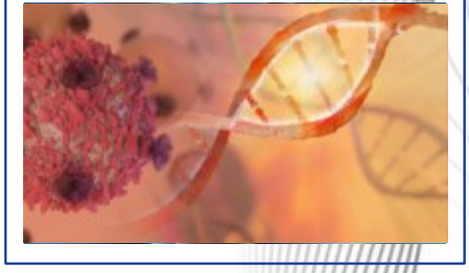

Since many years Pulsus has also been very instrumental to provide an invaluable channel for scientists and researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between universities, institutions, research bodies and organizations from different countries through international conferences and meetings.

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

With a legacy of 30 years of excellence in Medical Publishing we are endorsed by various societies like International Academy of Cardiovascular Sciences, International Society of Addiction Medicine, European Biotechnology Thematic Network Association, World Federation of Paediatrics Intensive and Critical Care Societies, World Association of Medical Sciences, International Society for Ceramics in Medicine, Thalassaemia International Federation and World Association of Integrated Medicine to nurture the research and development for the beneficence of society.

MARKET ANALYSIS

Global Oncology Therapeutics and Diagnostic Technologies Market (2022–2029)

The global cancer research and treatment industry is undergoing rapid expansion, fuelled by the rising incidence of various cancer types, continuous innovation in diagnostics, and the growing demand for precision medicine. The market encompasses a wide array of solutions including immunotherapy, targeted therapies, chemotherapy agents, radiotherapy devices, diagnostic imaging technologies (MRI, PET, CT), and molecular profiling platforms. These innovations support oncologists in delivering patient-specific treatments that significantly improve clinical outcomes.

A typical oncology ecosystem involves multi-disciplinary tools—from biopsy systems, genomic testing kits, and biomarker-based diagnostics, to AI-powered software used in treatment planning. These solutions are increasingly being integrated with digital health records and tele-oncology platforms to enhance accessibility and personalisation of care.

According to Data Bridge Market Research, the global oncology market—valued at approximately **USD 42.36 billion in 2021**—is project to grow to **USD 71.70 billion by 2029**, registering a **CAGR of 6.80%** from 2022 to 2029. The market forecast considers factors su increasing cancer prevalence, aging population, advancements in early detection methods, regulatory reforms, and healthcare investments globally.

This expanding landscape provides fertile ground for research collaboration, biotech innovation, and technology-driven care models. The insights gathered from ongoing clinical trials, real-world evidence, and population-based studies are reshaping how clinicians approach cancer—from diagnosis to survivorship.

As the field continues to evolve, global conferences such as this play a vital role in fostering partnerships, showcasing research breakthroughs, and driving future-ready strategies that will redefine oncology care in the years ahead.
