30 YEARS OF EXCELLENCE IN MEDICAL PUBLISHING

Paris, France's capital, a major European city is synonymous with all that is French. It is referred to all through the world as the "City of Light," for the reason that it was a vast center of education and ideas during the Age of Enlightenment. Paris is praised for its excellent city design, its architecture, historical centers, bridges, Cathedrals, parks, shopping, walkway bistros, wide and extravagant roads, rich food, and various landmarks. Once confined to an island amidst the Seine River, the Ile de la Cité, Paris, established over 2,000 years ago, rapidly spread to the two banks of the waterway—the river droit (right bank) and the river tasteless (left bank). The river bank at the right side is known for being the business heart of the city while the left bank is a home to the University of Paris and all that is scholarly and aesthetic.
