Market Analysis

PULSUS
WWW.PULSUSCONFERENCE.COM

Cardiology is the field in medicine which deals with the study of heart and its functioning, this field also helps in understanding the circulation system of the body which mainly deals with the pumping of the blood from the heart to the other parts of the body and vice-versa for purification purpose. Cardiology on a wider aspect deals with the detailed study of all the valves and the chambers present in the heart. The doctors who specialize in this field are called cardiologists. In present day life, about 610,000 people die due to heart diseases in United states. Cardiovascular disease which is one of the major diseases of heart causes more than half of all deaths across the Europe. It is important sto strengthen the field of cardiology in order to decrease the death rate globally.
