About City and Venue

PULSUS
WWW.PULSUSCONFERENCE.COM

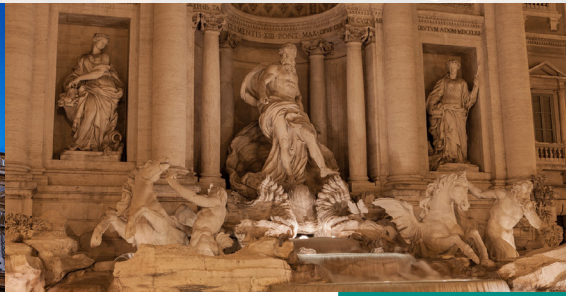

Rome, the capital of Italy, is the most populated city of the country. It is recognized as the fourth most populated city in Europe. It is a city that incorporates powerful art pieces, architecture, music and culture. Monuments like the Colosseum, Pantheon and others capture the history of the Roman Empire. Being one of the beautiful cities, Rome was ranked as the 14th most visited city in the world. It was also ranked as the most popular tourist attraction in Italy and also the 3rd most visited city in Europe. The most admirable thing of Rome would be its historical culture which takes us back to about two and half thousand year ago. While Rome was founded in the early 700 BC, it is known as one of the oldest continuously occupied cities in Europe.

Some of the tourist attractions in Rome would be Colosseum, Pantheon, Spanish Steps, Vatican City, Trevi Fountain, Santa Maria Maggiore, Palatine Hill, Piazza Navona, St. Peter Basilica and many more. Cardiology 2020 at Rome would definitely provide all our guests with an unforgettable experience in learning and exploring both the city and the subject..
