AGENDA

April 20, 2022

Opening Ceremony 09:15 to 09: 30 (BST)

KEYNOTE FORUM

09:30 - 10:10

Title: First-in-human experience of preload regulation with percutaneous transluminal caval flow regulation in heart failure with reduced ejection fraction patients

Jose E. Herrera, Lisandro Alvarado University, USA

10:10 - 10:50

Title: AI-Embedded digital pathology-from the prospect of developing world

Zehra Talet, Jinnah Sindh Medical University, Pakistan

Break 10:50 - 11:00

11:00 - 11:40

Title: Genetic variations in cytochrome P450 1A1 and 1B1 Genes in a cohort of patients from Iraq diagnosed with breast cancer

Hussien Q Ahmed, Kirkuk University, Iraq

E-poster Presentation

11:40 - 12:00 Title: TAVI and PCI versus SAVR and CABG – who will win the race?

Irma Mesanovic, Technical University of Munich, Germany

Lunch: 12:00 - 12:30**Session Introduction**

Sessions on: Heart rhythm and Arrhythmias, Oncology, Coronary artery disease, Skin Histopathology

12:30 - 13:00 Title: The importance of sustained junctional tachycardia following cessation of radiofrequency current delivery in slow pathway ablation

Alireza Malekrah, Mazandaran University of Medical Science, Iran

13:00 - 13:30 Title: The Discovery of “Black seed concoction” for the effective treatment of all forms of cancer

Rahali Lawali, Usman Danfodiyo University Teaching Hospital, Nigeria

13:30 - 14:00 Title: The Neutrophil Lymphocyte Ratio (NLR); recycled as predictor of angiographic coronary artery disease severity in stable ischaemic heart disease

Mohamed Daoub, Cardiology Benghazi Medical Centre, Libya

- 14:00 -14:30 Title: Skin tumor excision, still split skin graft is the work hoarse
Ali Adwal, Kirkuk University, Iraq
- 14:30 - 15:00 Title: Age, Sex, Clinical Presentation, histopathology and stages of breast cancer in tumor therapy and cancer research center
Ali E. Elshareef, Tumor therapy and Cancer research center, Sudan

Thanks giving and Closing Ceremony
