"Theme: Emerging Techniques and Advancement in Cardiology"

6th INTERNATIONAL CONFERENCE ON

CARDIOLOGY

JUNE 28-30, 2023 | LONDON, UK

https://cardiology.pulsusconference.com/

INVITATION

CARDIOLOGY 2023

Our committee members would be glad to welcome you all to gather at the cardiology experts meet of ***"6th International Conference on Cardiology"*** conference which is to be held during **June 28-30, 2023 in London, UK**.

This conference will include an interactive programme that covers the complete patient-physician pathway and extends beyond the scientific parts of cardiology as a continuation of the previous sessions.

In order to inspire learning and meaningful discourse, we aim to bring together bright thinkers to offer research-based presentations on a range of themes. An original and comprehensive overview of the most recent scientific developments in all branches of cardiology conferences 2023 will be presented at this conference.

The Congress will give attendees and speakers enough opportunity for one-on-one and small-group talks, fostering a close relationship. There will be a lot of renowned medical professionals at this Congress.

We hope you have a good time at the Congress and that your encounters with colleagues from other countries at Cardiology 2023 foster a fruitful exchange of cutting-edge concepts.

Regards,
Organising Committee

ABOUT US

Pulsus Group is an internationally renowned peer-review publisher in scientific, technical, and medical journals established in the year 1984 with offices in Ontario, Canada and Hyderabad, India has acquired Andrew John Publishing and openaccessjournals.com to expand its Open Access Publishing through its 50+ journals in association with 20+ International medical and scientific societies.

Pulsus through its cmesociety.com is been very instrumental to provide an invaluable channel for scientists and researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between universities, institutions, research bodies and organizations from different countries through international CME/CPD accredited conferences and meetings.

Cardiology is a medical specialty and internal medicine that deals with the disorders of the heart. The field aims to help people with heart conditions to revert to their healthy selves and enrich their quality of life.

The department of Cardiology deals with diagnosis and treatment of heart conditions including arrhythmias, angina, cardiomyopathy, congenital heart diseases, and heart murmurs. Physicians who specialize in this field of line are known as Cardiologists. Pediatric cardiologists are known as Pediatricians and those who go deeper into the cardiac surgery are known as Cardiothoracic Surgeons or Cardiac Surgeons. While all cardiologists studies the disorders of the heart, the study of adult and child heart disorders are different pathways.

ABOUT VENUE

The largest and capital city of both England and the United Kingdom is London. It has been a significant community for two millennia and is located on the river Thames in south-east England at the head of an estuary that extends for 50 miles (80 km) down to the North Sea. The City of London, its historic core and financial core, was established by the Romans as Londinium and still has limits that are similar to those from the Middle Ages. The City of London and all of its numerous historical sites, companies, and attractions are close to the hotel. Also nearby are the charming towns of Windsor, with its imposing castle, and Eton, with its prestigious school. The City of London and the City of Westminster are both considered cities inside the boundaries of London, and for the purposes of lieutenancies, the City of London and the rest of Greater London are both considered counties. Areas that are a part of the former counties of Middlesex, Kent, Surrey, Essex, and Hertfordshire are included in the Greater London region. The designation of London as the capital of England and later the United Kingdom has never been made official by law or in writing. Its role as the capital was decided by constitutional convention, hence it is a part of the unwritten constitution of the United Kingdom. As the Palace of Westminster expanded in the 12th and 13th centuries to become the permanent home of the royal court and, consequently, the political centre of the country, England's capital was transferred from Winchester to London.
