Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders or rub elbows with pioneers across the globe. Rome is all set for an amazing event as PULSUS proudly presents the "World Congress on Chemistry and Research Advancements" slated on June 17-18, 2019 at Rome, Italy.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Chemistry from around the world to participate in the upcoming Chemistry Congress 2019. The meeting for this year will revolve around the theme "**Expanding the possibilities in Chemistry**" thus relaying the most cutting-edge findings in the field of Chemistry Research. The two-day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Conference Highlights

- Organic Chemistry
- Inorganic Chemistry
- Progressing Physical Chemistry
- Chemical Polymer Technology
- Pharmaceutical and Medicinal Chemistry
- Matter bound Analytical Chemistry
- Industrial Chemistry
- Nano chemistry
- Environmental chemistry
- Food Chemistry
- Biochemistry
- Material Chemistry
- Theoretical Chemistry and Sustainability
- Forensic Chemistry
- Chemical Engineering
- Marine and Geo Chemistry

About PULSUS

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the
communities we serve.

About Conference

Chemistry is a knowledge domain composed of atoms, elements and molecules their composition, structure, attributes, demeanour and the changes they experience during a reaction with other compounds. Chemistry is called the “Fundamental science” because it connects other sciences such as Biology, Physics, Polymer Science, Industrial Science, Material science, Geology and Environmental Science. It sympathizes the importance of everyday. The biochemical changes that are exploited in our body by the intake of water as well as food is revealed by this vital Science. The Scope of Chemistry lies in both elemental and practical scientific field of study at a profound level as it occupies an intermediate position between physical science and biological science. Chemistry is considered to have become an established science with the work of law of conservation of mass that demanded quantitative observations of chemical phenomena. Similarly, various fields of Chemistry have been developed and hence this conference would be worth attending.

Target Audience

- Chemical Engineers
- Clinical Biochemists
- Forensic Scientists
- Material Chemists
- Food Chemists
- Nano Chemists
- Pharmacologists
- Research Scientists
- Junior Research Fellow (JRFs)
- Academic Scientists
- Students
- Diagnostic and Clinical laboratory professionals
- Business Entrepreneurs
- Industry Professionals
- Directors/Managers/CEO’s
- Presidents & Vice Presidents
- Brand Manufacturers/ Marketers of Consumer Products
- Marketing, Advertising and Promotion Agency Executives

Who should attend?

- Chemistry Students, Scientists and professors
- Chemists
- Researchers
- Chemistry Faculty
- Chemical Engineers
- Business Entrepreneurs
- Training Institutes
- Software developing companies

Why to attend?

- 10+ Keynote Speaker Session
- 50+ speaker faculty over 2 full days sharing Evidence Based practice
- 5+ Workshops
- 13 Interactive sessions
- Mixture of Chemistry professionals and Academia Delegates
- Networking

About City and Venue

Rome has a whole lot to recommend itself beautiful buildings, a warm climate, incredible food, and thousands of years of history to explore. In fact, there are so many things to occupy your time in Rome on an Italy, you may have difficulty paring down your list to the essentials. From visits to famous landmarks to iconic food experiences to strolls through art galleries.

Rome was founded in 753 BC by Romulus. Rome is 4,336 m (14,453 ft) above sea level and located inland about 27 kilometres (17 miles) from the Tyrrhenian Sea. Rome is known as the "Eternal city" and "Caput Mundi," coming from Latin and meaning capital of the world. Trajan’s Column in Rome is 128 feet high. The sculptural frieze that wraps around the column is approximately 655 feet in length. Rome became the capital city of a unified Italy in 1870 after taking the title from Florence. Concrete was a Roman invention used on many structures such as the Pantheon, the Colosseum and the Roman Forum, which are still standing today thanks to the development of Roman cement and concrete. The Romans first began building with concrete over 2,100 years ago and used it throughout the Mediterranean basin in everything from aqueducts and buildings to bridges and monuments. SPQR stands for "Senatus Populusque Romanus" and means "The Senate and the people of Rome." The symbol is still seen all over the city today.
