## Invitation

**PULSUS** brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders or rub elbows with pioneers across the globe. Rome is all set for an amazing event as PULSUS proudly presents the “**World Congress on Chemistry and Research Advancements**” slated on **June 20-21, 2019** at **Rome, Italy**.

**PULSUS** cordially welcome researchers, academicians, students and business professionals in the field of Chemistry from around the world to participate in the upcoming Chemistry Congress 2019. The meeting for this year will revolve around the theme “**Expanding the possibilities in Chemistry**” thus relaying the most cutting-edge findings in the field of Chemistry Research. The two-day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Chemistry Congress 2019  
Organizing Committee

## Conference Highlights

- Organic Chemistry
- Inorganic Chemistry
- Progressing Physical Chemistry
- Chemical Polymer Technology
- Pharmaceutical and Medicinal Chemistry
- Matter bound Analytical Chemistry
- Industrial Chemistry
- Nano chemistry
- Environmental chemistry
- Food Chemistry
- Biochemistry
- Material Chemistry
- Theoretical Chemistry and Sustainability
- Forensic Chemistry
- Chemical Engineering
- Marine and Geo Chemistry

## About City and Venue

Rome has a whole lot to recommend itself beautiful buildings, a warm climate, incredible food, and thousands of years of history to explore. In fact, there are so many things to occupy your time in Rome on an Italy, you may have difficulty paring down your list to the essentials. From visits to famous landmarks to iconic food experiences to strolls through art galleries.

Rome was founded in 753 BC by Romulus. Rome is 4,336 m (14,453 ft) above sea level and located inland about 27 kilometres (17 miles) from the Tyrrhenian Sea. Rome is known as the "Eternal city" and "Caput Mundi," coming from Latin and meaning capital of the world. Trajan's Column in Rome is 128 feet high. The sculptural frieze that wraps around the column is approximately 655 feet in length. Rome became the capital city of a unified Italy in 1870 after taking the title from Florence. Concrete was a Roman invention used on many structures such as the Pantheon, the Colosseum and the Roman Forum, which are still standing today thanks to the development of Roman cement and concrete. The Romans first began building with concrete over 2,100 years ago and used it throughout the Mediterranean basin in everything from aqueducts and buildings to bridges and monuments. SPQR stands for "Senatus Populusque Romanus" and means "The Senate and the people of Rome." The symbol is still seen all over the city today.
