Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders or rub elbows with pioneers across the globe. Barcelona is all set for an amazing event as PULSUS proudly presents the “**5th International Congress on Allergy and Clinical Immunology**” scheduled to be held on **May 02-03, 2022** at **Barcelona, Spain**.

PULSUS cordially welcome researchers, academicians, students, and business professionals in the field of Clinical Immunology and Allergic Diseases from around the world to participate in the upcoming Clinical Immunology 2022. The meeting for this year will revolve around the theme “**Advances in the Treatment of Immune and Allergic Diseases**” thus relaying the most cutting-edge findings in the field of Clinical Immunology. The two-day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Conference Highlights

- Maternal Fetal-Newborn Immunity
- Viral Immunity: Basic Mechanisms and Therapeutic Applications
- Immunometabolism at Crossroads of Obesity and Cancer
- Antibodies as Drugs
- Advances in Checkpoints Immunology from Autoimmunity to Oncology to Infectious Diseases.
- Myeloid Cells: From Birth to Immunity and Disease
- Cancer Immunotherapy: Decoding the Cancer Immunity Interactome
- Next generation HIV Vaccine and Therapies
- Innate Immunity: Complement and Beyond
- Neuro-Immune Interaction in Central Nervous System
- Positive-Strand RNA Viruses
- Healthcare
- Clinical Immunology
- Allergy and Inflammation
- Immune Disorders
- Food and Drug Allergy
- Anaphylaxis and Asthma
- Autoimmune Disorder
- Oral Allergy Syndrome
- Neonatal and Paediatric Immunology
- Vaccination and Immunisation
- Market and Future of Therapeutics

About PULSUS

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancement de la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from the USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

About Clinical Immunology

Clinical immunology is the study of diseases caused by disorders of the immune system (failure of the cellular components of the system, abnormal behaviour, and malignant growth). It is also related to diseases of other systems, where the immune response plays a role in the pathological and clinical characteristics. Diseases caused by disorders of the immune system are divided into two categories:

Immune deficiency, in which certain parts of the immune system are unable to provide adequate responses (such as chronic granulomatous disease and primary immune diseases); Autoimmunity, in which the immune system attacks its host's body (such as systemic lupus erythematosus, rheumatoid arthritis, Hashimoto's disease, and myasthenia gravis).

Other diseases of the immune system include various allergies (such as asthma and other allergies), which do not respond adequately to other harmless compounds. The most famous disease affecting the immune system itself is AIDS, an immunodeficiency characterized by the suppression of CD4 + T cells ("helpers"), dendritic cells, and macrophages by the human immunodeficiency virus (HIV). Clinical immunologists also study ways to prevent the immune system from trying to destroy allografts (transplant rejection).

Why to Attend???

Meet experts and influencers in Clinical Immunology 2022. The goal of the conference is to discuss, disseminate and preserve knowledge in Clinical Immunology and Allergic Diseases. It gives innovators the opportunity to bridge the gap between development and adoption. At this two-day event, you can give presentations, disseminate information, meet current and potential scientists, gain attention with new discoveries in Clinical Immunology and gain fame. Participants will have direct access to a select group of experts and decision makers.

The attendees can find:

- Allergists
- Immunologists
- Cellular biologists
- Molecular biologists
- Biochemists
- Biotechnologists
- Pulmonologists
- Microbiologists
- Pathologists
- Bioinformaticians
- Physician
- Paediatricians
- Immunology professionals

- Allergy specialists
- Infectious diseases treatment doctors
- University Professors
- Research Scholars
- Laboratory technicians
- Students

Who should attend?

- Researchers and Faculty members
- Students and Research scholars
- Business Delegates
- Medical college and Universities

Barcelona is a city in northeastern Spain that is located on the seashore. It is Catalonia's capital and largest city, as well as the country's second most populous municipality. With a population of 1.6 million people within city limits, its urban area extends to numerous neighbouring municipalities within the Province of Barcelona and is home to around 4.8 million people, making it the European Union's fifth most populous urban area after Paris, the Ruhr area, Madrid, and Milan.

Barcelona is a prominent cultural, commercial, and financial city in southwestern Europe, as well as the country's primary biotech base. Barcelona's significance in worldwide socioeconomic concerns qualifies it for global city classification (Beta +) as a prominent world city.

Barcelona is a major port, with the Port of Barcelona serving as one of Europe's major seaports and the busiest European passenger port, as well as an international airport, Barcelona–El Prat Airport, which serves over 50 million passengers annually, an extensive motorway network, and a high-speed rail line connecting it to France and the rest of Europe
