Years Excellence

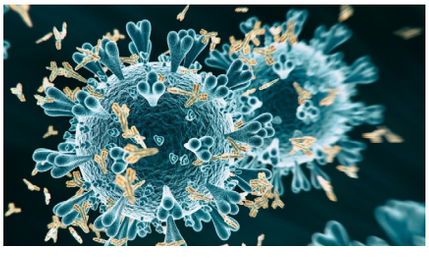

ABOUT US

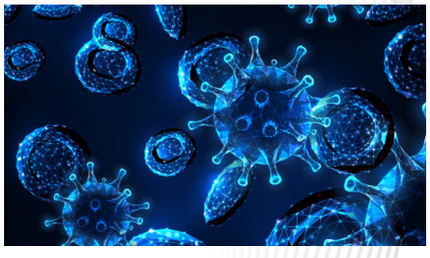

Since many years Pulsus has also been very instrumental to provide an invaluable channel for scientists and researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between universities, institutions, research bodies and organizations from different countries through international conferences and meetings.

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.v

With a legacy of 30 years of excellence in Medical Publishing we are endorsed by various societies like International Academy of Cardiovascular Sciences, International Society of Addiction Medicine, European Biotechnology Thematic Network Association, World Federation of Paediatrics Intensive and Critical Care Societies, World Association of Medical Sciences, International Society for Ceramics in Medicine, Thalassaemia International Federation and World Association of Integrated Medicine to nurture the research and development for the beneficence of society.

MARKET ANALYSIS

The global Immunology Market is expected to grow in the next years as a consequence of the rising demand for immunology pharmaceuticals caused by the increased frequency of immunological disorders. Because of the seriousness of immunological illnesses, there has been a rise in global awareness. The government and public groups have undertaken a number of initiatives and advisory programmes. As a result, demand for immunology medications will rise. Furthermore, improved immunology medicine efficacy has contributed to improved patient outcomes, which has resulted in the worldwide Immunology Market expanding.

The global immunology market is predicted to be worth US$ 91,850 million in 2021 and US$ 156,378.2 million by 2028, growing at an annual rate of 8% over the forecast period (2021–2028).

TARGET AUDIENCE

ABOUT VENUE

London is the capital and largest city of both England and the United Kingdom.It is located on the Thames River in southeast England, at the head of a 50-mile (80-kilometer) estuary that leads to the North Sea,and has been a major settlement for two millennia. The ancient core and financial centre of London, the City of London, was founded by the Romans as Londinium and retains mediaeval boundaries. Since the nineteenth century, "London" has also referred to the metropolitan area surrounding this core, historically divided between the counties of Middlesex, Essex, Surrey, Kent, and Hertfordshire. The City of Westminster, to the west of the City of London, has housed the national government for centuries.

London, as one of the world's global cities, wields significant influence in the arts, commerce, education, entertainment, fashion, finance, health care, media, tourism, and communications, and is thus sometimes referred to as the world's capital. Its GDP makes it the largest urban economy in Europe, and it is one of the world's major financial centres. It had the second-highest number of ultra-high-net-worth individuals in Europe after Paris in 2019 and the second-highest number of billionaires of any city in Europe after Moscow. It has the highest concentration of higher education institutions in Europe, with Imperial College London specialising in natural and applied sciences, the London School of Economics specialising in social sciences, and the comprehensive University College London. The city has the most 5-star hotels of any city on the planet.

The Tower of London, Kew Gardens, the combined Palace of Westminster, Westminster Abbey, and St Margaret's Church,and the historic settlement of Greenwich, where the Royal Observatory, Greenwich is a World Heritage Site in London thatdefines the Prime Meridian (0° longitude) and Greenwich Mean Time. Buckingham Palace, the London Eye, Piccadilly Circus,St Paul's Cathedral, Tower Bridge, and Trafalgar Square are also notable landmarks. It is home to a plethora of museums,galleries, libraries, and sporting venues, including the British Museum, National Gallery, Natural History Museum, Tate Modern, British Library, and West End theatres. The London Underground is the world's oldest rapid transit system.

That is how amazing London is! Waiting to see you there.
