ABOUT US

Since many years Pulsus has also been very instrumental to provide an invaluable channel for scientists and researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between universities, institutions, research bodies and organizations from different countries through international conferences and meetings.

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

With a legacy of 30 years of excellence in Medical Publishing we are endorsed by various societies like International Academy of Cardiovascular Sciences, International Society of Addiction Medicine, European Biotechnology Thematic Network Association, World Federation of Paediatrics Intensive and Critical Care Societies, World Association of Medical Sciences, International Society for Ceramics in Medicine, Thalassaemia International Federation and World Association of Integrated Medicine to nurture the research and development for the beneficence of society.

MARKET ANALYSIS

The global market for kidney disease and urology equipment was valued at US $ 4.11 billion in 2019 and is expected to reach the US $ 6.45 billion in 2027, with a compound annual growth rate of 5.8% from 2020 to 2027. The emergence of innovative technologies is one of the key factors that are expected to promote the growth of the urology and nephrology equipment market in the next few years. Suppliers are increasing RandD's efforts to introduce technologically advanced equipment. In addition, these advances will also contribute to the development of easy-to-use, lightweight, home-use high-definition machines with connectivity capabilities that can remotely monitor patients in real-time scenarios. This will ultimately help the market's growth during the forecast period.

ABOUT VENUE

London is the capital and largest city of England and the United Kingdom with a total population of 9,002,488. It stands on the River Thames in south-east England at the head of a 50-mile (80 km) estuary down to the North Sea, and has been a major settlement for two millennia. The City of London, its ancient core and financial center, was founded by the Romans as Londinium and retains boundaries close to its medieval ones. As one of the world's global cities,] London exerts strong influence on its arts, commerce, education, entertainment, fashion, finance, health care, media, tourism, and communications, and has previously been called the capital of the world. Its GDP (€801.66 billion in 2017) makes it the biggest urban economy in Europe] and it is one of the major financial centers in the world. In 2019 it had the second-highest number of ultra high-net-worth individuals in Europe after Paris and the second-highest number of billionaires in Europe after Moscow. As of 2021, London has the most millionaires of any city.
