Invitation

Pulsus conferences insist participants from all over the world clock in “**4th International Conference on Nephrology & Urology**” during **August 03 - 05, 2023 | Valencia, Spain**. The theme of the conference this year is “*A new perspective on Nephrology and Urology health care*” which guarantees an outstanding science program supporting many esteemed speakers who are tormented by intuition. Through providing access to ongoing training and networking opportunities, the conference aims to improve the practice of advancing the profession for the benefit of the people and the individual patients they represent.

Clinical Nephrology 2023 is an annual gathering of Nephrology Scientists, Nephrology Professors & Renal Experts and committees to debate the future of Nephrologist in terms of diagnosis, treatment and transition care development.

Regards

Award Presentation and Closing ceremony	

Tourist Attractions

Venue

Valencia lies on the Spanish South-eastern coast and is the third largest city in Spain with over 791,000 inhabitants. The picturesque city welcomes 2.2 million visitors every year and is home to three UNESCO World Heritage Declarations. The city boasts avant-garde architecture, a futuristic Arts and Sciences City and many creative events such as the Goyas film awards or the Michelin food gala. Its tourism sector employs over 30,000 professionals and it has been developing its innovative practices, making it a strong candidate for the European Capital of Smart Tourism. Valencia is working to measure and certify the carbon footprint of its tourism activity. They are also the first European City to receive a double ITU (UN) and ISO certification for the Sustainable Development of Cities. They work closely with PREDIF (State Representative Platform of People with Physical Disability), and 52 of Valencia's tourist entities and companies meet the requirements of PREDIF's inclusive tourism programme. The city is well-connected by over 164km of cycle lanes, high-speed trains, motorways and its port which all have features for passengers requiring additional assistance. , which is why it has promoted a representative body, the Municipal Tourism Council, with 60 representatives from the tourism ecosystem, citizens and institutions.
