PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Rome is all set for an amazing event as PULSUS proudly presents the "International Conference on Neuro-Engineering and Computational Neuroscience" slated on July 17-18, 2019 at Rome, Italy.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Computational Neuroscience professionals from around the world to participate in the upcoming Computational Neuroscience 2019. The meeting for this year will revolve around the theme "**Inchoate of Computational Neuroscience**" thus relaying the most cutting edge findings in the field of Computational Neuroscience. The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

About PULSUS

PULSUS
WWW.PULSUSCONFERENCE.COM

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

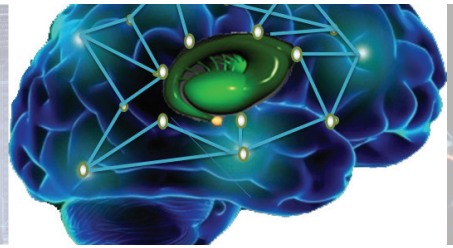

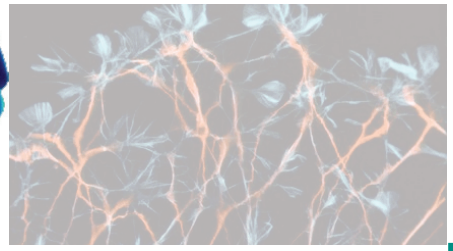

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Neuroscience can be described as a scientific study of human nervous system which covers all the disciplines of neural system. The perfect organization of nerve cells to functional circuits (neural networks) which helps in communication is dealt by the study of neurobiology. The functioning of brain and spinal cord is obtained through the process of imaging modalities which is called as brain mapping. Neuroscience deals with Medical specialists, such as neurologists and psychiatrists, look at the disorders of the nervous system from basic neuroscience findings to find ways to treat and prevent them. They also look for ways to rehabilitate those who have undergone neurological damage.

Target Audience

- Neurosurgeons
- Scientists
- Researchers
- Scholars
- Academic scientists
- Diagnostic Laboratory Professionals
- Students

Who should attend?

- Neurosurgeons
- Researchers on neuro surgery
- Medical institutions
- Academic Professionals
- Training Institutes
- Students

Why to attend?

- With members from around the world focused on learning about Computational Neuroscience and its advances; this is your best opportunity to reach the largest assemblage of participants from the Neuroscience community. Conduct presentations, distribute information, meet with current and potential scientists, make a splash with new discoveries in the Neuroscience and receive name recognition at this 2-day event. World-renowned speakers, the most recent techniques, developments, and the newest updates in the field of Neuroscience and its various adavancements included in Computational Neuroscience
