Market Analysis

PULSUS
WWW.PULSUSCONFERENCE.COM

Pulmonologists face a wide variety of challenges: Chronic Lung Disease is an umbrella term used to describe progressive lung diseases including emphysema, chronic bronchitis, refractory asthma, and some forms of bronchiectasis. The lack of a comprehensive information about the disease people with COPD typically ranges from 40% to 70%, depends on disease severity, while the 2-year mortality rate for people with severe COPD is about 50%. Survival rates for people with severe COPD are, in fact, worse than those for people with many common cancers. The COPD Foundation was established to undertake initiatives that result in expanded services for COPD and to improve the lives of individuals affected by COPD. The Foundation's activities focus on achieving these results through research, education and advocacy programs that will lead to prevention and a cure for this disease.
