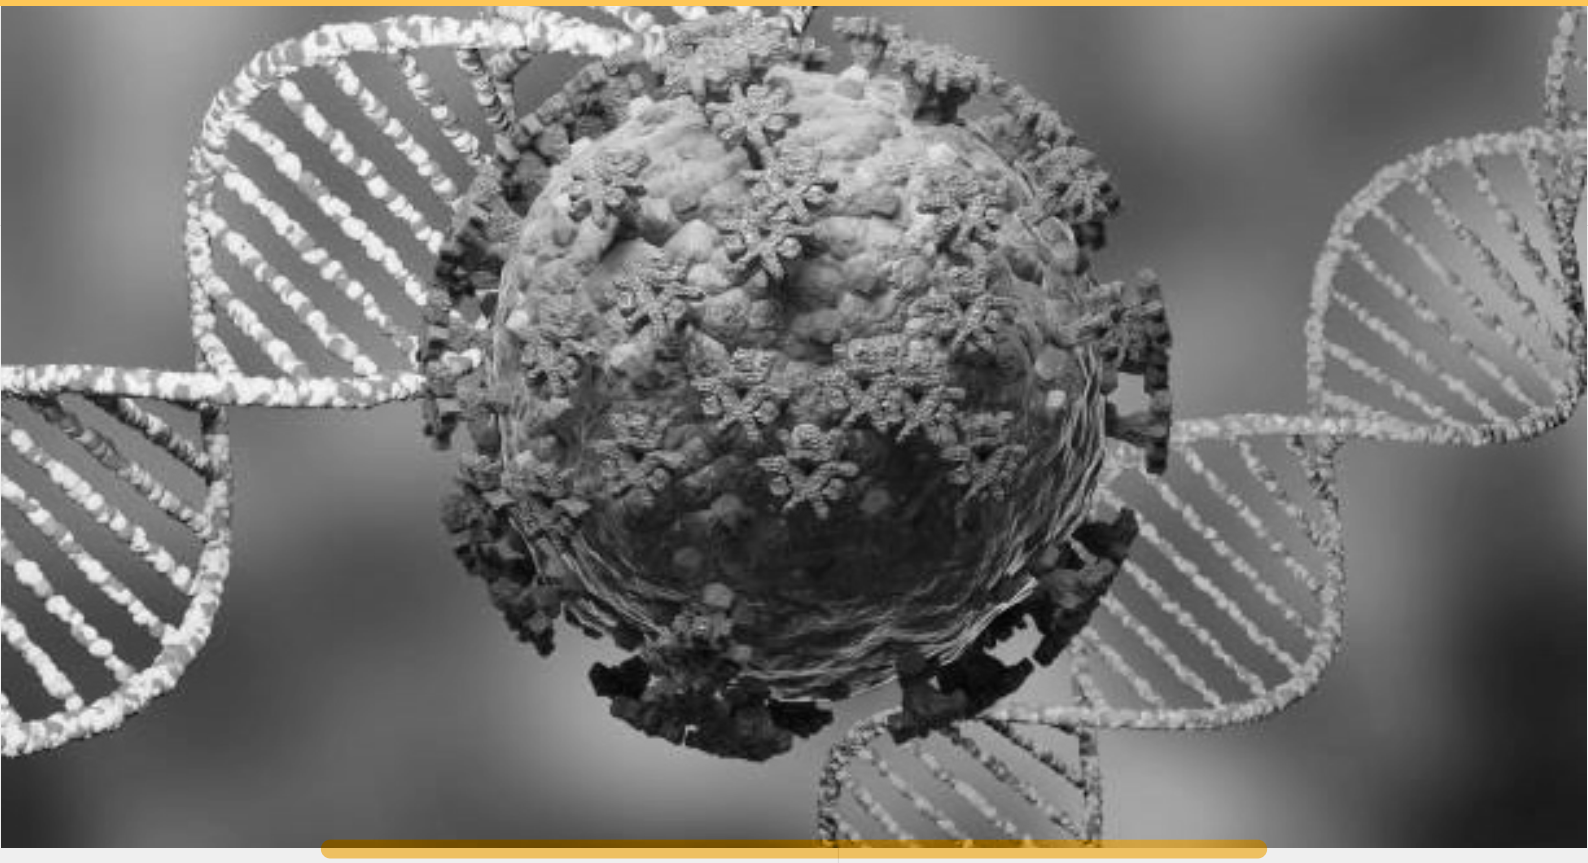
35 YEARS IN ASSESING THE IMPACT OF HEALTHCARE RESEARCH

TENTATIVE PROGRAM



Annual Congress on

COVID AND COVID MUTATIONS

June 9-10, 2022 | Dublin, Ireland

Theme: Interactively Network Magnetic Outsourcing COVID -19 Mutations

https://covidmutations.cmesociety.com/registration

DAY 1: JUNE 09, 2022 | THURSDAY	
Registration Desk opens Opening Ceremony & Inaugural Address	
SP	**Assist Prof Dr. Sengal Bagci Taylan** Evaluating Knowledge Level of Rational Drug Use in Patients with COVID-19
SP	**Serdar Ozer** Effect of Topical Intranasal Insulin on Healing of the Nasal Mucosa.
SP	**Dr. Giuseppe Pannone** Alternative mechanisms of apoptosis in lethal Covid-19 disease
SP	**Dr. Giuseppe Pannone** Defective m2 macrophage activation and tlr-4 up-regulation is responsible for covid-19 lung disease with the crucial involvement of medullary and resident megacaryocytes up-regulation. An authoptic based study of lethal sarscov-2
NETWORKING & REFRESHMENTS BREAK | 11:00-11:30	
SP	**Dr. Lukas Fiedler** Antimicrobial prophylaxis with Clindamycin in clean-contaminated head and neck surgery elevates the rate of surgical site infections in tracheostomies - A retrospective monocentric comparative study
SP	**Dr Appolinaire Rititingar** About COVID- 19 in Africa: understanding the environment pollution by the pandemic in Chad during the mutations
NETWORKING & LUNCH | 13:30-14:00	
SP	**Dr. Francisco Mera-Cordero** Update LONG COVID Research and knowledge
SP	**Dr. Om Prakash Sharma** Transcriptome and SARS-CoV-2 biological network directed analysis to overcome various mutational and treatment limitations
SP	**Mr. Indrajeet Kumar** Role of plant and algal metabolites in the fight against COVID-19 pandemic
SP	**Mr. Hichem KOLSI** The Ability of Carbon Dioxide–Derived Indices to Predict Adverse Outcome After Cardiac Surgery
SP	**Mr. Nitesh Kumawat** Site Density Functional Theory and Structural Bioinformatics Analysis of the SARS-CoV Spike Protein and hACE2 Complex.
